## READY TO DO BATTLE

JAPANESE WARSHIPS UNDER THE  
COMMAND OF URUU NEAR THE  
RUSSIAN FLEET.

## LATTER IN GRAVEST DANGER

LIABLE TO BE ATTACKED AT ANY  
TIME BY TORPEDO BOATS  
OF THE ENEMY.

London, Jan. 12.—Japanese correspondents of the Morning Post consider it is not incredible that Japanese men-of-war have reached Diego Garcia, Chagres archipelago, and point out that although Admiral Togo is at Tokio other admirals are not idle. Vice Admiral Uruu, it is stated, has been cruising in the vicinity of the equator for some time past. The number of vessels he has is kept secret, but doubtless he is ready to do battle with the Russian Baltic squadron whenever they appear east of the seventeenth meridian.

Vice Admiral Kamimura's whereabouts is somewhat of a mystery, the correspondents say, but possibly his squadron is in the China sea, within easy steaming distance of either the Malacca or Sunda straits, but anyway, they declare, if Vice Admiral Rojestvensky purposes to spend the ensuing weeks in cruising in the vicinity of Madagascar, it is not improbable that he will find himself assailed by a torpedo fleet.

## RUSSIAN WARSHIP DAMAGED.

Cruiser Izmrud Returning to Port Said on the Way Home.

Berlin, Jan. 12.—The Lokal Anzeiger's St. Petersburg correspondent says that the Russian cruiser Izmrud is returning to Port Said on the way to Cronstadt in a badly damaged condition.

The cruiser Izmrud, which is one of the vessels of Admiral Botrovsky's contingent of the Russian Second Pacific squadron, with the other ships of the fleet was according to a dispatch from Suez, expected to reach that place at 3 o'clock Thursday morning. This is the first intimation that any vessel belonging to Admiral Botrovsky's squadron has been damaged.

## WITHDRAWS HIS REQUEST.

President Ripley of Santa Fe Desires No Rehearing.

Chicago, Jan. 12.—President E. P. Ripley of the Santa Fe railway has withdrawn his request for a rehearing before the interstate commerce commission in the Colorado Fuel and Iron rebate case. His reasons for this action are given by him in the following telegram sent to the chairman of the commission:

"Since requesting a rehearing in the matter of the investigation of New Mexico coal rates, I have been furnished with notes of evidence already taken and find that there is not testimony to support the criticisms of the press that have concerned me personally the most and that while there may have been technical violations of the law, yet, inasmuch as I know them to have been unintentional and that they resulted in injury to no shipper and in view of the fact that the entire matter is the subject of a pending civil action which will be held before a federal court, I beg to withdraw such request."

## FOUNDERED DURING STORM.

Chief Officer and Twenty-One Men of American Dredger Lost.

Waterford, Ire., Jan. 12.—The steamer Zeno arrived here during the day with the captain and twelve men of the American steam dredger Texas, from Galveston via Southampton Dec. 12 for Galveston, which foundered in a storm off the Hebrides. The crew entered the small boats, but one containing the chief officer and twenty-one men sank immediately and all its occupants were drowned. The survivors drifted for several days before being picked up.

The survivors, who suffered terribly from cold and hunger, say that just prior to sighting the Zeno they had drawn lots to decide which should be killed to provide food for the rest.

## IOWA LETTER CARRIER OUSTED.

Treasurer and General Organizer of Iowa Association Removed.

Des Moines, Ia., Jan. 12.—G. P. Clarke of Wadena, Ia., treasurer and general organizer of the Iowa State Letter Carriers' association, has been removed by the assistant postmaster general. Mr. Clark has been active in urging the passage of laws increasing the salaries of the carriers, which is largely responsible for the action of the department. A circular letter which he sent out to the Iowa carriers during the last session is regarded as having aided largely toward the action of the department.

## MORAL OF THE HIGHEST TYPE.

Testimony Favorable to Mormons in Smoot Inquiry.

Washington, Jan. 12.—Testimony intended to prove that the Mormon moral is of the highest type and to refute the word of witnesses who have declared the contrary to be true, was offered by counsel for Senator Reed Smoot Wednesday. W. J. McConnell, formerly a United States senator from Idaho, and twice governor of his state, and Representative Burton L. French, a member of the present congress and re-elected for another term, were the day's witnesses.

It was the opening session of the defense in the Smoot investigation. Senator Knox, a new member of the committee, attended for the first time. The committee room was crowded. There is a sentiment in the committee in favor of pressing the investigation to a conclusion and with that end in view it was announced that beginning Thursday longer sessions of the committee will be held.

Both witnesses Wednesday denied many statements directed against the Mormon church and its alleged interference in political affairs. Former Governor McConnell said that the Gentile members of the Idaho legislature have not as high morals as the Mormon members and that if it were not questions of geography and knowledge of legislative need the interests of the state would be better served by an entire Mormon legislature.

## GEORGE SUTHERLAND NAMED.

Will Succeed Kearns as Senator From Utah.

Salt Lake City, Utah, Jan. 12.—At a joint caucus of Republicans of the two houses of the legislature Wednesday night, George Sutherland was nominated as United States senator to succeed Senator Kearns.

George Sutherland was born in Buckingham, Eng., in 1862. At the age of two years he came with his parents to Utah where his father engaged in trade and mining. Mr. Sutherland was elected to congress in 1900, where he served one term. While not a member of the Mormon church, Mr. Sutherland received the support of the Mormon members of the legislature. He was the favorite son-in-law of John D. Lee, the Danite leader, executed for directing the Mountain Meadows massacre.

## FLINT SUCCEEDS T. R. BARD.

Los Angeles Man Elected Senator From California.

Sacramento, Cal., Jan. 12.—Frank P. Flint, Republican, of Los Angeles, was Wednesday elected United States senator to succeed Thomas R. Bard, whose term expires March 4, 1905.

As foreshadowed by the vote of 65 for Mr. Flint in the Republican caucus held in the morning, he was chosen on the first ballot taken at the first joint session of the senate and house, which convened later. Later he received the full Republican vote, 36 in the senate and 75 in the assembly, a total of 111. The Democratic vote of four in each house was cast for Congressman Theodore Abell.

## WILL SUCCEED FAIRBANKS.

Congressman Hemmenway Named for Senator by Indiana Republicans.

Indianapolis, Jan. 12.—Only forty minutes were required by the Republican joint caucus Wednesday night to organize and nominate two candidates for the United States senate, Albert J. Beveridge to succeed himself and Congressman James A. Hemmenway of Booneville to fill the unexpired term of Charles W. Fairbanks, vice president-elect.

Following the nominating and seconding speeches the nominations of Senator Beveridge and Congressman Hemmenway were confirmed by a rising vote.

## LACKED ELEVEN VOTES.

Carter Fails to Get Senatorship in Montana on First Ballot.

Helena, Mont., Jan. 12.—The first joint ballot in the legislature resulted in no election for United States senator. Ninety-five votes were cast, one member being absent and two paired, making 48 the number necessary to elect. Thomas H. Carter came within eleven of the requisite number. Carter received the caucus vote, 37 members having attended Tuesday night's caucus and pledged themselves to vote for him.

## Several Persons Injured.

St. Paul, Jan. 12.—Charles Stiff and Clovis Meron were badly injured and a score more badly bruised by a collision between two Selby avenue cars on Fourth street, between Minnesota and Robert, late Wednesday afternoon. The accident was due to the failure of the air brakes on a large car to hold going down the Fourth street incline and it crashed into a car ahead.

## Governor Meade Inaugurated.

Olympia, Wash., Jan. 12.—Before a joint session of the legislature Governor McBride read his retiring message and Governor Albert E. Meade took the oath of office and read his first message.

## STATE RESTS ITS CASE

DEFENSE WILL NOW BEGIN

INTRODUCTION OF EVIDENCE  
IN THE KOCH TRIAL.

## DEFENDANT TO TAKE STAND

ASA P. BROOKS SAYS THAT THE  
ACCUSED DID NOT KILL

DR. L. A. GEBHARD.

New Ulm, Minn., Jan. 12.—In the trial of Dr. George R. Koch for the murder of Dr. L. A. Gebhardt, Judge Webber decided that the state need not call Editor A. P. Brooks, who saw the murder, as a witness. The court then called Brooks to the stand and he described the murder as he witnessed it over the transom. The witness did not know the murderer, but swore positively that it was not the defendant, Dr. Koch.

The defense will attempt to introduce evidence with a view to showing the real culprit. It says it will prove an absolute alibi by showing that Dr. Koch was home at 9:38 o'clock. It will prove this through the testimony of Dr. Koch's father, Ida Koch, Emma Koch and Paul Hippauf, a roommate of Dr. Koch.

The defense will prove that Dr. Koch still has the sample lead pencil he received, one similar to which was found near the body. Though it will admit that the handkerchief found near the body was once in the possession of the defendant, it will prove that it was placed beside the body by another than the defendant for a distinct purpose. It will prove that Dr. Koch had arsenic, a poison pleasanter to the taste and harder to detect than strychnine, in his possession at the time the alleged box of poison was sent. It will call Miss Fitzpatrick, who was driving with the defendant the Sunday before the murder to show how the injury to the defendant's hands was received.

Dr. G. R. Koch will be placed on the stand to testify on his own behalf. The defense will make no attempt to disprove Ole Ulen's testimony, which is merely that of one man's word against another.

At 4:35 Wednesday afternoon General Childs, leading attorney for the state, announced that the prosecution had finished. The attorneys for the defense then moved to have portions of the testimony stricken out but failed.

## BAD FIRE AT MILWAUKEE.

Property Valued at Quarter of a Million Dollars Destroyed.

Milwaukee, Jan. 12.—Fire which broke out about midnight practically gutted the establishments of the George P. Zeigler company, confectionery, and Benjamin Young's wholesale saddlery, 235-245 East Water street. The loss is estimated at \$250,000.

600, of which Zeigler company's loss is \$150,000 and Young's \$100,000. The losses are nearly covered by insurance. The cause of the fire is unknown. The blaze is said to have started in the saddlery store in a quantity of excelsior.

During the progress of the fire, three firemen, William H. Archer, James Plunkett and William Davis, fell from a ladder. Plunkett is seriously injured.

## THREE KILLED IN A WRECK.

Locomotive Crashes Into Caboose of a Freight Train.

Calro, Ill., Jan. 12.—Three men were killed and a woman was probably fatally burned Wednesday in a wreck on the Cotton Belt railroad at Piggott, Ark. A local southbound freight was standing at Piggott station when a locomotive crashed into the caboose, reducing the car to kindling. The wreck caught fire. Mrs. Louis Walm of Frances, Ark., and two children were in the caboose. One of her hands was burned off. Her children escaped with slight injuries. The wreck was due to a dense fog.

## PROMINENT MEN PRESENT.

Chicago Press Club Celebrates Its Silver Anniversary.

Chicago, Jan. 12.—The twenty-fifth anniversary of the founding of the Chicago Press club was celebrated here at night with a banquet in the club rooms, 106 Madison street. In after dinner speeches statesmen and authors of national reputation, the invited guests of the newspapermen, praised the power and influence of the American press in the highest terms. The principal speakers of the evening were Colonel George Harvey of New York and Governor Albert B. Cummins of Iowa.

Other speakers were ex-Governor Peck of Wisconsin, General Smith D. D. Atkins of Freeport, Ill.; Melville M. McCormick, Opie Read, John E. Wright, Emerson Hough and W. D. Nesbit.

Two hundred and forty resident and non-resident members of the club with their guests were present. Homer J. Carr, president of the club, presided.

While the speechmaking was in progress William J. Bryan was announced and was compelled to make a speech.

## WILL TAKE PLACE IN PUBLIC.

Hearing of Testimony Before North Sea Commission.

Paris, Jan. 12.—The international commission appointed to inquire into the North sea incident Wednesday issued a formal statement that the hearings of witnesses would take place in public. The admirals making up the commission will receive an equal quota of cards of admission owing to the restricted capacity of the courtroom at the foreign office.

## Westphalian Miners Strike.

Berlin, Jan. 12.—Nearly 100,000 miners of the Westphalian district have struck. A meeting of union leaders will be held on Thursday to determine whether the strike shall be made general. The desire to save their prestige among the miners influenced them to take this step.

## HEINZE FINISHES TETSIFYING.

Unable to Name Officials Owning Mining Property in Montana.

Butte, Mont., Jan. 12.—F. Augustus Heinze has concluded his testimony in the deposition taken before Notary George MacDougall in the cases of the Boston and Montana Mining company against F. Augustus Heinze and his mining companies for the alleged looting of \$6,000,000 worth of ore from claims adjoining the Minnie Healy mine, supposed to be owned by the Heinze interests. The Amalgamated attorneys made an effort to ascertain definitely the identity of those persons working the Minnie Healy property, but to questions concerning the officials or their operations Mr. Heinze either pleaded ignorance or said he forgot, declaring that the Johnston company had taken over the control of the Minnie Healy and that he was in absolute ignorance as to the identity of those comprising the Johnston company.

## Physician Commits Suicide.

Minneapolis, Jan. 12.—Dr. William A. Norred of this city, aged thirty-four, committed suicide Wednesday afternoon by shooting himself through the heart in the bathroom of his apartments at the Hotel Landour, Ninth street and Nicollet avenue. Despondency over financial affairs seems to have prompted the act.

It will prove that Dr. Koch had arsenic, a poison pleasanter to the taste and harder to detect than strychnine, in his possession at the time the alleged box of poison was sent. It will call Miss Fitzpatrick, who was driving with the defendant the Sunday before the murder to show how the injury to the defendant's hands was received.

Dr. G. R. Koch will be placed on the stand to testify on his own behalf. The defense will make no attempt to disprove Ole Ulen's testimony, which is merely that of one man's word against another.

At 4:35 Wednesday afternoon General Childs, leading attorney for the state, announced that the prosecution had finished. The attorneys for the defense then moved to have portions of the testimony stricken out but failed.

BAD FIRE AT MILWAUKEE.

Property Valued at Quarter of a Million Dollars Destroyed.

Milwaukee, Jan. 12.—Fire which broke out about midnight practically gutted the establishments of the George P. Zeigler company, confectionery, and Benjamin Young's wholesale saddlery, 235-245 East Water street. The loss is estimated at \$250,000.

600, of which Zeigler company's loss is \$150,000 and Young's \$100,000. The losses are nearly covered by insurance. The cause of the fire is unknown. The blaze is said to have started in the saddlery store in a quantity of excelsior.

During the progress of the fire, three firemen, William H. Archer, James Plunkett and William Davis, fell from a ladder. Plunkett is seriously injured.

THREE KILLED IN A WRECK.

Locomotive Crashes Into Caboose of a Freight Train.

Calto, Ill., Jan. 12.—Three men were killed and a woman was probably fatally burned Wednesday in a wreck on the Cotton Belt railroad at Piggott, Ark. A local southbound freight was standing at Piggott station when a locomotive crashed into the caboose, reducing the car to kindling. The wreck caught fire. Mrs. Louis Walm of Frances, Ark., and two children were in the caboose. One of her hands was burned off. Her children escaped with slight injuries. The wreck was due to a dense fog.

PROMINENT MEN PRESENT.

Chicago Press Club Celebrates Its Silver Anniversary.

Chicago, Jan. 12.—The twenty-fifth anniversary of the founding of the Chicago Press club was celebrated here at night with a banquet in the club rooms, 106 Madison street. In after dinner speeches statesmen and authors of national reputation, the invited guests of the newspapermen, praised the power and influence of the American press in the highest terms. The principal speakers of the evening were Colonel George Harvey of New York and Governor Albert B. Cummins of Iowa.

Other speakers were ex-Governor Peck of Wisconsin, General Smith D. D. Atkins of Freeport, Ill.; Melville M. McCormick, Opie Read, John E. Wright, Emerson Hough and W. D. Nesbit.

Two hundred and forty resident and non-resident members of the club with their guests were present. Homer J. Carr, president of the club, presided. While the speechmaking was in progress William J. Bryan was announced and was compelled to make a speech.

WILL TAKE PLACE IN PUBLIC.

Hearing of Testimony Before North Sea Commission.

Paris, Jan. 12.—The international commission appointed to inquire into the North sea incident Wednesday issued a formal statement that the hearings of witnesses would take place in public. The admirals making up the commission will receive an equal quota of cards of admission owing to the restricted capacity of the courtroom at the foreign office.

Westphalian Miners Strike.

Berlin, Jan. 12.—Nearly 100,000 miners of the Westphalian district have struck. A meeting of union leaders will be held on Thursday to determine whether the strike shall be made general. The desire to save their prestige among the miners influenced them to take this step.

HEINZE FINISHES TETSIFYING.

Unable to Name Officials Owning Mining Property in Montana.

Butte, Mont., Jan. 12.—F. Augustus Heinze has concluded his testimony in the deposition taken before Notary George MacDougall in the cases of the Boston and Montana Mining company against F. Augustus Heinze and his mining companies for the alleged looting of \$6,000,000 worth of ore from claims adjoining the Minnie Healy mine, supposed to be owned by the Heinze interests. The Amalgamated attorneys made an effort to ascertain definitely the identity of those persons working the Minnie Healy property, but to questions concerning the officials or their operations Mr. Heinze either pleaded ignorance or said he forgot, declaring that the Johnston company had taken over the control of the Minnie Healy and that he was in absolute ignorance as to the identity of those comprising the Johnston company.

Physician Commits Suicide.

Minneapolis, Jan. 12.—Dr. William A. Norred of this city, aged thirty-four, committed suicide Wednesday afternoon by shooting himself through the heart in the bathroom of his apartments at the Hotel Landour, Ninth street and Nicollet avenue. Despondency over financial affairs seems to have prompted the act.

## READY TO DO BATTLE

JAPANESE WARSHIPS UNDER THE COMMAND OF URIU NEAR THE RUSSIAN FLEET.

## LATTER IN GRAVEST DANGER

LIABLE TO BE ATTACKED AT ANY TIME BY TORPEDO BOATS OF THE ENEMY.

London, Jan. 12.—Japanese correspondents of the Morning Post consider it is not incredible that Japanese men-of-war have reached Diego Garcia, Chagres archipelago, and point out that although Admiral Togo is at Tokio other admirals are not idle. Vice Admiral Uriu, it is stated, has been cruising in the vicinity of the equator for some time past. The number of vessels he has is kept secret, but doubtless he is ready to do battle with the Russian Baltic squadron whenever they appear east of the seventieth meridian.

Vice Admiral Kamimura's whereabouts is somewhat of a mystery, the correspondents say, but possibly his squadron is in the China sea, within easy steaming distance of either the Malacca of Sunda straits, but anyway, they declare, if Vice Admiral Rojestvensky purposes to spend the ensuing weeks in cruising in the vicinity of Madagascar, it is not improbable that he will find himself assailed by a torpedo fleet.

## RUSSIAN WARSHIP DAMAGED.

Cruiser Izmrud Returning to Port Said on the Way Home.

Berlin, Jan. 12.—The Lokal Anzeiger's St. Petersburg correspondent says that the Russian cruiser Izmrud is returning to Port Said on the way to Cronstadt in a badly damaged condition.

The cruiser Izmrud, which is one of the vessels of Admiral Botrovsky's contingent of the Russian Second Pacific squadron, with the other ships of the fleet was expected to reach that place at 3 o'clock Thursday morning. This is the first intimation that any vessel belonging to Admiral Botrovsky's squadron has been damaged.

## WITHDRAWS HIS REQUEST.

President Ripley of Santa Fe Desires No Rehearing.

Chicago, Jan. 12.—President E. P. Ripley of the Santa Fe railway has withdrawn his request for a rehearing before the interstate commerce commission in the Colorado Fuel and Iron rebate case. His reasons for this action are given by him in the following telegram sent to the chairman of the commission:

"Since requesting a rehearing in the matter of the investigation of New Mexico coal rates, I have been furnished with notes of evidence already taken and find that there is not testimony to support the criticisms of the press that have concerned me personally the most and that while there may have been technical violations of the law, yet, inasmuch as I know them to have been unintentional and that they resulted in injury to no shipper and in view of the fact that the entire matter is the subject of a pending civil action which will be held before a federal court, I beg to withdraw such request."

## FOUNDERED DURING STORM.

Chief Officer and Twenty-One Men of American Dredger Lost.

Waterford, Ire., Jan. 12.—The steamer Zeno arrived here during the day with the captain and twelve men of the American steam dredger Texas, from Dantzic via Southampton Dec. 12 for Galveston, which foundered in a storm off the Hebrides. The crew entered the small boats, but one containing the chief officer and twenty-one men sank immediately and all its occupants were drowned. The survivors drifted for several days before being picked up.

The survivors, who suffered terribly from cold and hunger, say that just prior to sighting the Zeno they had drawn lots to decide which should be killed to provide food for the rest.

## IOWA LETTER CARRIER OUSTED.

Treasurer and General Organizer of Iowa Association Removed.

Des Moines, Ia., Jan. 12.—G. P. Clarke of Wadena, Ia., treasurer and general organizer of the Iowa State Letter Carriers' association, has been removed by the assistant postmaster general. Mr. Clark has been active in urging the passage of laws increasing the salaries of the carriers, which is largely responsible for the action of the department. A circular letter which he sent out to the Iowa carriers during the last session is regarded as having aided largely toward the action of the department.

## MORAL OF THE HIGHEST TYPE.

Testimony Favorable to Mormons in Smoot Inquiry.

Washington, Jan. 12.—Testimony intended to prove that the Mormon moral is of the highest type and to refute the word of witnesses who have declared the contrary to be true, was offered by counsel for Senator Reed Smoot Wednesday. W. J. McConnell, formerly a United States senator from Idaho, and twice governor of his state, and Representative Burton L. French, a member of the present congress and re-elected for another term, were the day's witnesses.

It was the opening session of the defense in the Smoot investigation. Senator Knox, a new member of the committee, attended for the first time. The committee room was crowded. There is a sentiment in the committee in favor of pressing the investigation to a conclusion and with that end in view it was announced that beginning Thursday longer sessions of the committee will be held.

Both witnesses Wednesday denied many statements directed against the Mormon church and its alleged interference in political affairs. Former Governor McConnell said that the Gentile members of the Idaho legislature have not as high morals as the Mormon members and that if it were not questions of geography and knowledge of legislative need the interests of the state would be better served by an entire Mormon legislature.

## GEORGE SUTHERLAND NAMED.

Will Succeed Kearns as Senator From Utah.

Salt Lake City, Utah, Jan. 12.—At a joint caucus of Republicans of the two houses of the legislature Wednesday night, George Sutherland was nominated as United States senator to succeed Senator Kearns.

George Sutherland was born in Buckingham, Eng., in 1862. At the age of two years he came with his parents to Utah where his father engaged in trade and mining. Mr. Sutherland was elected to congress in 1900, where he served one term. While not a member of the Mormon church, Mr. Sutherland received the support of the Mormon members of the legislature. He was the favorite son-in-law of John D. Lee, the Danite leader, executed for directing the Mountain Meadow massacre.

## FLINT SUCCEEDS T. R. BARD.

Los Angeles Man Elected Senator From California.

Sacramento, Cal., Jan. 12.—Frank P. Flint, Republican, of Los Angeles, was Wednesday elected United States senator to succeed Thomas R. Bard, whose term expires March 4, 1905.

As foreshadowed by the vote of 65 for Mr. Flint in the Republican caucus held in the morning, he was chosen on the first ballot taken at the first joint session of the senate and house, which convened later. Later he received the full Republican vote, 36 in the senate and 75 in the assembly, a total of 111. The Democratic vote of four in each house was cast for Congressman Theodore Abell.

## WILL SUCCEED FAIRBANKS.

Congressman Hemmenway Named for Senator by Indiana Republicans.

Indianapolis, Jan. 12.—Only forty minutes were required by the Republican joint caucus Wednesday night to organize and nominate two candidates for the United States senate, Albert J. Beveridge to succeed himself and Congressman James A. Hemmenway of Booneville to fill the unexpired term of Charles W. Fairbanks, vice president-elect.

Following the nominating and seconding speeches the nominations of Senator Beveridge and Congressman Hemmenway were confirmed by a rising vote.

## LACKED ELEVEN VOTES.

Carter Fails to Get Senatorship in Montana on First Ballot.

Helena, Mont., Jan. 12.—The first joint ballot in the legislature resulted in no election for United States senator. Ninety-five votes were cast, one member being absent and two paired, making 48 the number necessary to elect. Thomas H. Carter came within eleven of the requisite number. Carter received the caucus vote, 37 members having attended Tuesday night's caucus and pledged themselves to vote for him.

## Several Persons Injured.

St. Paul, Jan. 12.—Charles Stiff and Clovis Meron were badly injured and a score more badly bruised by a collision between two Selby avenue cars on Fourth street, between Minnesota and Robert, late Wednesday afternoon. The accident was due to the failure of the air brakes on a large car to hold going down the Fourth street incline and it crashed into a car ahead.

## Governor Meade Inaugurated.

Olympia, Wash., Jan. 12.—Before a joint session of the legislature Governor McBride read his retiring message and Governor Albert E. Meade took the oath of office and read his first message.

# POSTPONED

We are fearful lest a portion of our offerings for the White Sale will not arrive until Monday. As we are quite anxious that everything be in complete readiness when we do open the sale, we deem it wise to postpone the sale one day and it will now begin

Tuesday, January 17th

This event will be well received by ladies desiring to have their sewing done early. We will have a very complete assortment of all kinds of "white" as well as some most excellent bargains in embroideries, laces, sheetings and undermuslins which should prove immensely attractive.

## STATE RESTS ITS CASE

DEFENSE WILL NOW BEGIN INTRODUCTION OF EVIDENCE IN THE KOCH TRIAL.

## DEFENDANT TO TAKE STAND

ASA P. BROOKS SAYS THAT THE ACCUSED DID NOT KILL DR. L. A. GEBHARD.

New Ulm, Minn., Jan. 12.—In the trial of Dr. George R. Koch for the murder of Dr. L. A. Gebhardt, Judge Webber decided that the state need not call Editor A. P. Brooks, who saw the murder, as a witness. The court then called Brooks to the stand and he described the murder as he witnessed it over the transom. The witness did not know the murderer, but swore positively that it was not the defendant, Dr. Koch.

The defense will attempt to introduce evidence with a view to showing the real culprit. It says it will prove an absolute alibi by showing that Dr. Koch was home at 9:30 o'clock. It will prove this through the testimony of Dr. Koch's father, Ida Koch, Emma Koch and Paul Hippauf, a roommate of Dr. Koch.

The defense will prove that Dr. Koch still has the sample lead pencil he received, one similar to which was found near the body. Though it will admit that the handkerchief found near the body was once in the possession of the defendant, it will prove that it was placed beside the body by another than the defendant for a distinct purpose. It will prove that Dr. Koch had arsenic, a poison pleasanter to the taste and harder to detect than strychnine, in his possession at the time the alleged box of poison was sent. It will call Miss Fitzpatrick, who was driving with the defendant the Sunday before the murder to show how the injury to the defendant's hands was received.

Dr. G. R. Koch will be placed on the stand to testify on his own behalf. The defense will make no attempt to disprove Ole Ulen's testimony, which is merely that of one man's word against another.

At 4:35 Wednesday afternoon General Childs, leading attorney for the state, announced that the prosecution had finished. The attorneys for the defense then moved to have portions of the testimony stricken out but failed.

# GEO. WILSON HOME

## BURNED TO GROUND

Nothing of the Building or Contents of South Side Home is Saved from Fire

## PARTLY COVERED BY INSURANCE

Fire Supposed to Have Started From an Air Tight Stove Down Stairs.

A most distressing fire occurred last night about midnight when the home of Mr. and Mrs. George Wilson on south Eighth with all its contents was destroyed.

The alarm was sent in about 11:20 o'clock and the department responded very quickly, but the work of the firemen was of little consequence as the people in this vicinity have absolutely no fire protection as the water mains do not run out far enough. The distressing feature of the fire was the fact that the firemen had to stand with arms folded and watch the home go up in smoke. The house was a new one, having been built about two years ago. Mr. Wilson had \$700 insurance on the house, \$100 on the barn and \$500 on the furniture. It is thought that this will not cover half the loss.

Mr. and Mrs. Wilson and their five children got out in safety but they had a narrow escape and did not even save enough clothing to be presentable. They have the sympathy of the community in their loss.

## FOUR FIRST LEGISLATORS

Of the Survivors of the State's First Representatives, P. K. Johnson Lives in This City

The meeting of the thirty-fourth session of the Minnesota legislature recalls the fact that there are alive four men who were members of the territorial legislature, which convened in St. Paul more than fifty years ago. They are Parsons K. Johnson, of Brainerd; Benjamin H. Randall, Winona; John D. Ludden and William P. Murray, of St. Paul says the Faribault Journal.

Parsons K. Johnson was a member of the house of representatives in 1849; Benjamin H. Randall, 1851-52-53; John D. Ludden, 1851-52-53, and Wm. P. Murray was in the house in 1852-53, and the council in 1854-55. Mr. Ludden was speaker of the house in 1852. William P. Murray was president of the council in 1855. Mr. Ludden was subsequently a member of the council in 1856-57. William P. Murray was a member of the house in 1857. This was prior to the organization of the state government.

The session of 1857 was one in which the memorable territorial capitol fight came, when Joseph Rolette, a member from Pembina, played the heathen Chinese upon the town of St. Peter, and brought Gov. Johnson's town to grief. Mr. Murray was elected a member of the house in 1868—but did not qualify, being absent from the state. Mr. Murray, however, was a member of the senate in 1866-67-75-76.

These four old men, all of whom have passed the three-score and ten mark, who used to eat muskrat, sleep on buffalo robes, in tents, and out of doors, made good laws, and history for the men who came later.

They happened to meet the other day in the new capitol. After inspecting every part from the basement to the dome, one of the old members remarked, "Who of us fifty years ago would thought of living to see a building erected like this as a state capitol in Minnesota, and its legislative halls transplanted from the dining room of a log tavern to the magnificent ones we have just seen?"

"Little Colds" neglected—thousands of lives sacrificed every year. Dr. Wood's Norway Pine Syrup cures little colds—cures big colds too, drowd to the very verge of consumption.

Corner D. M. McDonald Goes to the Scene of the Accident to View Remains.

Coroner D. M. McDonald returned this noon from Pine River. He went up yesterday in answer to a telegram stating that a man had killed himself east of Pine River in Crow Wing county.

He had to drive from Pine River to Twp. 138, range 29, and there discovered that John W. Fesler, of Coon Rapids, Ia., while riding on a sleigh upon which there was a rifle, was accidentally killed. The sleigh was jarred in some manner and the rifle was discharged, the bullet entering the young man's abdomen. He died a short time afterward.

Fesler was with J. Huffman and Hugo Talszien at the time and they took the body to a nearby farm house. Fesler was visiting in this county with friends. He has relatives in Iowa.

Dr. McDonald decided that an inquest was not necessary and the remains will be brought to this city tonight for further disposition. The young man was 28 years of age.

## Millions and the Mikado.

The emperor's yearly expense of living is limited. For this purpose he draws \$3,000,000 from the national treasury, writes Hosmer Whitfield in the January Success. He has got to pay out of it some 1,000 employees. The lady in waiting is said to be paid \$150 monthly. I have no doubt that even a washing girl is paid about \$70. Japan is a country where a laboring man's wages are not more than 50 cents daily. The chief cook of the imperial palace is paid \$200 a month.

## Hot Springs to Hatch Chickens.

To hatch chickens by means of the waters of the hot springs at Glenwood Springs, Colo., is the scheme projected by a wealthy Philadelphian, says the New York Press. He proposes to erect eight incubators near several unused springs on the south bank of the Grand river and to employ running hot water in place of the lamps which usually supply the necessary heat. The project or of the plan hopes to hatch out from 5,000 to 6,000 eggs each month.

## INSTALLATION

## CEREMONIES

Of Three Branches of the I. O. O. F. and the Knights of Pythias of this City

## LAST NIGHT IN RESPECTIVE HALLS

Past Chancellor Commander Presented with a Beautiful Jewel by White Cross

There was a joint installation of Florence Rebekah Lodge No. 111, I. O. O. F., Unity Lodge No. 194 and Rushworth Encampment No. 19 last night in Odd Fellow hall and it was one of the most auspicious events in lodge circles in this city in some time.

The work was exemplified for the Rebekahs by Miss Margaret Nichols, district deputy president.

G. S. McCullough, district deputy grand master, had charge of the work in Unity lodge. Mr. McCullough is also district deputy grand patriarch of the Encampment and he also had charge of the work of installing the officers of this order.

The work was impressive throughout and the mingling of the members of these three important branches of the Odd Fellows order was deemed a very good thing for all and the event was perhaps more thoroughly enjoyed last night than on any similar event in the history of the order in this city.

Among those present last night was R. E. McFarland, of Duluth, grand high priest of the grand encampment.

At the conclusion of the work the members of all three orders sat down to a sumptuous banquet served by the Rebekahs, which was thoroughly enjoyed. It had been intended that Rev. Richard Brown would deliver an address during the evening, but he was unavoidably absent and this feature was dispensed with. The members enjoyed a social time together at the conclusion of the banquet.

The officers of the Rebekahs who were installed were:

N. G.—Edna Leak.  
V. G.—Janne Williams.  
Rec. Sec.—Clara Paine.  
Fin. Sec.—Emma Hanson.  
Treas.—Carrie Lagerquist.

The officers of Unity lodge were:

N. G.—N. M. Paine.  
V. G.—W. H. Bolton.  
Rec. Sec.—Frank Russell.  
Fin. Sec.—N. M. Paine.  
Treas.—Silas Hall.

The officers of Rushworth encampment were:

C. P.—Oscar Fox.  
S. R.—G. N. Grant.  
Rec. Scribe—H. L. Paine.  
Fin. Scribe—W. H. Sadler.  
Treas.—N. M. Paine.

White Cross lodge, K. of P., also held very interesting installation ceremonies last night in their hall in the Columbian block. The installing officer was Col. C. D. Johnson, district deputy grand chancellor and the work was exemplified in an eloquent and impressive manner. After the work of the evening light refreshments were served after which there was a social session presided over by Thos. Halladay. Mr. Halladay introduced as speakers for the occasion Judge W. A. Fleming, Col. C. D. Johnson and Rev. Richard Brown. Each was heard to advantage in timely remarks on the good of the order.

One of the very interesting features of the session last night was the presentation to Past Chancellor Commander H. D. Wright of a past commander jewel. Rev. Richard Brown made the presentation address and Mr. Wright responded in a very apt manner. Mr. Wright has for some time been a resident of Bemidji but he retained his interest in White Cross lodge to the end.

## Skillful Porto Ricans.

The natives of Porto Rico fashion a variety of useful and ornamental articles by hand from the palm leaves, gourds, coconuts and other products of the island. They are skillful in weaving hammocks, hats similar to panama hats, and a great variety of baskets. The senoras and senoritas of Porto Rico are especially skillful with the needle and produce a considerable quantity of fine drawn work and laces.

GEO. WILSON HOME  
BURNED TO GROUND

Nothing of the Building or Contents of South Side Home is Saved from Fire

## PARTLY COVERED BY INSURANCE

Fire Supposed to Have Started From an Air Tight Stove Down Stairs.

A most distressing fire occurred last night about midnight when the home of Mr. and Mrs. George Wilson on south Eighth with all its contents was destroyed.

The alarm was sent in about 11:20 o'clock and the department responded very quickly, but the work of the firemen was of little consequence as the people in this vicinity have absolutely no fire protection as the water mains do not run out far enough. The distressing feature of the fire was the fact that the firemen had to stand with arms folded and watch the home go up in smoke. The house was a new one, having been built about two years ago. Mr. Wilson had \$700 insurance on the house, \$100 on the barn and \$500 on the furniture. It is thought that this will not cover half the loss.

Mr. and Mrs. Wilson and their five children got out in safety but they had a narrow escape and did not even save enough clothing to be presentable. They have the sympathy of the community in their loss.

## FOUR FIRST LEGISLATORS

Of the Survivors of the State's First Representatives, P. K. Johnson Lives in This City

The meeting of the thirty-fourth session of the Minnesota legislature recalls the fact that there are alive four men who were members of the territorial legislature, which convened in St. Paul more than fifty years ago. They are Parsons K. Johnson, of Brainerd; Benjamin H. Randall, Winona; John D. Ludden and William P. Murray, of St. Paul says the Faribault Journal.

Parsons K. Johnson was a member of the house of representatives in 1849; Benjamin H. Randall, 1851-52-53; John D. Ludden, 1851-52-53, and Wm. P. Murray was in the house in 1852-53, and the council in 1854-55. Mr. Ludden was speaker of the house in 1852. William P. Murray was president of the council in 1855. Mr. Ludden was subsequently a member of the council in 1856-57. William P. Murray was a member of the house in 1857. This was prior to the organization of the state government.

The Minneapolis Journal pleads for Gov. Johnson that the patronage of the new capitol may not be taken from him and given over to the scheming republicans who are seeking to keep these good things from him. If Johnson don't get what's coming to him it won't be the fault of the Minneapolis end of the game.

The citizens of Cass Lake have a delegation in Washington headed by A. G. Bernard for the purpose of attempting the abolishment of the Minnesota forest reserve and opening the lands to entry and settlement. It is not probable that any action seeking to amend the Morris bill will be attempted at this session as several of the members have declared against any such action during the present timber operations.

The eleventh annual meeting of the Minnesota Good Roads association will convene at the old capitol building, St. Paul, on Tuesday, Jan. 24. Several matters of importance will be discussed and the meeting promises to be a very interesting one. There are twelve active good roads associations in the state and interest in this line is gaining ground daily. Good roads will do more for Northern Minnesota than any other one thing.

**TWENTY FISHERMEN IN PERIL.**  
Gale Sweeps Ice Out of the Bay at Marinette, Mich.

Marinette, Wis., Jan. 12.—The blizzard Wednesday swept ice out of the bay from here to a point fifteen miles north, and the lives of fishermen who went out Tuesday in their boats, now on the other side of the ice, are in danger. Twenty men are known to be within the danger zone, but no relief can be sent them. The wind is blowing fifty miles an hour.

## VALUABLE JEWELRY FOUND.

That Stolen From Mrs. Ambrose Clark Recovered.

New York, Jan. 12.—Buried in a glass jar on west One Hundred and Fifty-fifth street, between Eighth and Central avenues, detectives have found more than \$23,000 worth of jewelry, the property of Mrs. Ambrose Clark, daughter-in-law of Mrs. Potter, the wife of Bishop Henry C. Potter, which were stolen from Fernleigh at Cooperstown, the Clark home, on July 7 last.

## REVOLT IN CONGO FREE STATE.

Native Troops Kill Their Officers and Destroy Property.

Berlin, Jan. 12.—A dispatch to the Tagliche Rundschau from Brussels says that the news of the uprising in the Congo Free State is not confirmed officially but that unofficial reports affirm in the most positive manner that a revolt has broken out in the Mongalla district. The A-Babua tribe of native troops is said to have murdered and killed its officers, the American mission has been stormed and the posts of the Kasai company destroyed.

GEO. WILSON HOME  
BURNED TO GROUND

Nothing of the Building or Contents of South Side Home is Saved from Fire

## PARTLY COVERED BY INSURANCE

Fire Supposed to Have Started From an Air Tight Stove Down Stairs.

A most distressing fire occurred last night about midnight when the home of Mr. and Mrs. George Wilson on south Eighth with all its contents was destroyed.

The alarm was sent in about 11:20 o'clock and the department responded very quickly, but the work of the firemen was of little consequence as the people in this vicinity have absolutely no fire protection as the water mains do not run out far enough. The distressing feature of the fire was the fact that the firemen had to stand with arms folded and watch the home go up in smoke. The house was a new one, having been built about two years ago. Mr. Wilson had \$700 insurance on the house, \$100 on the barn and \$500 on the furniture. It is thought that this will not cover half the loss.

Mr. and Mrs. Wilson and their five children got out in safety but they had a narrow escape and did not even save enough clothing to be presentable. They have the sympathy of the community in their loss.

## FOUR FIRST LEGISLATORS

Of the Survivors of the State's First Representatives, P. K. Johnson Lives in This City

The meeting of the thirty-fourth session of the Minnesota legislature recalls the fact that there are alive four men who were members of the territorial legislature, which convened in St. Paul more than fifty years ago. They are Parsons K. Johnson, of Brainerd; Benjamin H. Randall, Winona; John D. Ludden and William P. Murray, of St. Paul says the Faribault Journal.

Parsons K. Johnson was a member of the house of representatives in 1849; Benjamin H. Randall, 1851-52-53; John D. Ludden, 1851-52-53, and Wm. P. Murray was in the house in 1852-53, and the council in 1854-55. Mr. Ludden was speaker of the house in 1852. William P. Murray was president of the council in 1855. Mr. Ludden was subsequently a member of the council in 1856-57. William P. Murray was a member of the house in 1857. This was prior to the organization of the state government.

The session of 1857 was one in which the memorable territorial capitol fight came, when Joseph Rolette, a member from Pembina, played the heathen Chinese upon the town of St. Peter, and brought Gov. Johnson's town to grief. Mr. Murray was elected a member of the house in 1868—but did not qualify, being absent from the state. Mr. Murray, however, was a member of the senate in 1866-67-75-76.

These four old men, all of whom have passed the three-score and ten mark, who used to eat muskrat, sleep on buffalo robes, in tents, and out of doors, made good laws, and history for the men who came later.

They happened to meet the other day in the new capitol. After inspecting every part from the basement to the dome, one of the old members remarked, "Who of us fifty years ago would thought of living to see a building erected like this as a state capitol in Minnesota, and its legislative halls transplanted from the dining room of a log tavern to the magnificent ones we have just seen?"

"Little Colds" neglected—thousands of lives sacrificed every year. Dr. Wood's Norway Pine Syrup cures little colds—cures big colds too, drowns to the very verge of consumption.

ACCIDENTAL  
SHOOTING

John W. Fesler, While Riding on a Sleigh, Was Killed North of Here

## WAS VISITING FRIENDS THERE

Corner D. M. McDonald Goes to the Scene of the Accident to View Remains.

Coroner D. M. McDonald returned this noon from Pine River. He went up yesterday in answer to a telegram stating that a man had killed himself east of Pine River in Crow Wing county.

He had to drive from Pine River to Twp. 133, range 29, and there discovered that John W. Fesler, of Coon Rapids, Ia., while riding on a sleigh upon which there was a rifle, was accidentally killed. The sleigh was jarred in some manner and the rifle was discharged, the bullet entering the young man's abdomen. He died a short time afterward.

Fesler was with J. Huffman and Hugo Talszien at the time and they took the body to a nearby farm house. Fesler was visiting in this county with friends. He has relatives in Iowa.

Dr. McDonald decided that an inquest was not necessary and the remains will be brought to this city tonight for further disposition. The young man was 28 years of age.

Impossible to foresee an accident. Not impossible to be prepared for it. Dr. Thomas' Electric Oil. Monarch over pain.

## Millions and the Mikado.

The emperor's yearly expense of living is limited. For this purpose he draws \$3,000,000 from the national treasury, writes Hosmer Whitfield in the January Success. He has got to pay out of it some 1,000 employees. The lady in waiting is said to be paid \$150 monthly. I have no doubt that even a washing girl is paid about \$70. Japan is a country where a laboring man's wages are not more than 50 cents daily. The chief cook of the imperial palace is paid \$200 a month.

## Hot Springs to Hatch Chickens.

To hatch chickens by means of the waters of the hot springs at Glenwood Springs, Colo., is the scheme projected by a wealthy Philadelphian, says the New York Press. He proposes to erect eight incubators near several unused springs on the south bank of the Grand river and to employ running hot water in place of the lamps which usually supply the necessary heat. The projector of the plan hopes to hatch out from 5,000 to 6,000 eggs each month.

INSTALLATION  
CEREMONIES

Of Three Branches of the I. O. O. F. and the Knights of Pythias of this City

## LAST NIGHT IN RESPECTIVE HALLS

Past Chancellor Commander Presented with a Beautiful Jewel by White Cross

There was a joint installation of Florence Rebekah Lodge No. 111, I. O. O. F., Unity Lodge No. 194 and Rushworth Encampment No. 19 last night in Odd Fellow hall and it was one of the most auspicious events in lodge circles in this city in some time.

The work was exemplified for the Rebekahs by Miss Margaret Nichols, district deputy president.

G. S. McCullough, district deputy grand master, had charge of the work in Unity lodge. Mr. McCullough is also district deputy grand patriarch of the Encampment and he also had charge of the work of installing the officers of this order.

The work was impressive throughout and the mingling of the members of these three important branches of the Odd Fellows order was deemed a very good thing for all and the event was perhaps more thoroughly enjoyed last night than on any similar event in the history of the order in this city.

Among those present last night was R. E. McFarland, of Duluth, grand high priest of the grand encampment.

At the conclusion of the work the members of all three orders sat down to a sumptuous banquet served by the Rebekahs, which was thoroughly enjoyed. It had been intended that Rev. Richard Brown would deliver an address during the evening, but he was unavoidably absent and this feature was dispensed with. The members enjoyed a social time together at the conclusion of the banquet.

The officers of the Rebekahs who were installed were:

N. G.—Edna Leak.  
V. G.—Jennie Williams.  
Rec. Sec.—Clara Paine.  
Fin. Sec.—Emma Hanson.  
Treas.—Carrie Lagerquist.

The officers of Unity lodge were:

N. G.—N. M. Paine.  
V. G.—W. H. Bolton.  
Rec. Sec.—Frank Russell.  
Fin. Sec.—N. M. Paine.  
Treas.—Silas Hall.

The officers of Rushworth encampment were:

C. P.—Oscar Fox.  
S. R.—G. N. Grant.  
Rec. Scribe—H. L. Paine.  
Fin. Scribe—W. H. Sadler.  
Treas.—N. M. Paine.

White Cross lodge, K. of P., also held very interesting installation ceremonies last night in their hall in the Columbian block. The installing officer was Col. C. D. Johnson, district deputy grand chancellor and the work was exemplified in an eloquent and impressive manner. After the work of the evening light refreshments were served after which there was a social session presided over by Thos. Halladay. Mr. Halladay introduced as speakers for the occasion Judge W. A. Fleming, Col. C. D. Johnson and Rev. Richard Brown. Each was heard to advantage in timely remarks on the good of the order.

One of the very interesting features of the session last night was the presentation to Past Chancellor Commander H. D. Wright of a past commander jewel. Rev. Richard Brown made the presentation address and Mr. Wright responded in a very apt manner. Mr. Wright has for some time been a resident of Bemidji but he retained his interest in White Cross lodge to the end.

Beautiful eyes and a handsome face are eloquent commendations. Bright eyes are windows to a woman's heart. Hollister's Rocky Mountain Tea makes bright eyes. 35 cents tea or tablets. H. P. Dunn & Co

## Already Supplied.

A Swedish girl just arrived from the old country attended evening service at a Duluth church. The minister, seeing she was a stranger, shook hands with her at the close of the meeting and said he would find pleasure in calling upon her soon, whereupon the girl, blushing, hung her head and bashfully murmured, "Thank you, but Ay have a fella."

## Skillful Porto Ricans.

The natives of Porto Rico fashion a variety of useful and ornamental articles by hand from the palm leaves, gourds, coconuts and other products of the island. They are skillful in weaving hammocks, hats similar to panama hats, and a great variety of baskets. Canes, paper knives and other articles are carved out of the native woods, some of which show curious and strikingly ornamental markings. The seniors and senioritas of Porto Rico are especially skillful with the needle and produce a considerable quantity of fine drawn work and laces.

## Absentminded.

The Groom—I can't see that check your father placed among the wedding presents. The Bride—Papa is so absentminded! He lit his cigar with it.

## Portrait Buttons.

Portrait buttons for campaign purposes are no new thing. Exactly the same method of conveying the expression of political admiration was in force in the days of Queen Anne. At the time of the famous sermon by Dr. Sacheverell, when party passion reached a high pitch, the custom was originated of using coat buttons adorned with caricatures, portraits of the much discussed doctor and similar decorations. Nor was the fancy confined to buttons. Gentlemen sealed their letters with similar designs, and a little later they were to be found on the backs of playing cards and even on women's fans. Dr. Sacheverell's head, again, was made use of to ornament tobacco stoppers, crockery and similar articles.

REMARKS OF SENATOR FRATER  
Many Eloquent Eulogies Delivered  
by Former Friends of Deceased—Date Set by Senate

Today at St. Paul the state senate, in accordance with a resolution passed some days ago, held a special session at which time the life and character of the late Senator Allen F. Ferris, of this city, was commemorated by his former colleagues. Among those who made addresses were Senator Morgan, of Albert Lea, Senator Dunn of Ramsey county, Senator Thorpe of Kandiyohi county, Senator Peterson of Clay county, Senator Brower of Stearns county, Senator Horton of St. Paul and Senator John T.

monuments to the energy and foresight of Aitkin, Brainerd, Motley, Aldrich, Perham, and others. But this development brought many others, of all classes, as in the operation of a railroad, and the express companies which are associated with it, men of ability and character are a necessity and are always to be found, even on the remote borders of civilization.

Early in 1872 came to Brainerd, as the Agent of the American Express Company, William Ferris with his family from western New York, and with keen energy, foresight and pluck went to work to serve well his company and assist in developing the town and surrounding country by aiding in the establishment of schools and churches and everything that goes to make up a model American community. Of this family the youngest child and only son was the seven year old Allan F. Ferris, a child of barely school age, transferred

and his friends in his successes; and to be honored as a counsellor on many occasions where politics was the question at issue. We were friends. His lease of life had many years seemingly—his prospects in life were rising to a dazzling meridian in every way—business, home, family—all to his liking, and contentment his portion. Suddenly in the midst of all this he is stricken—his sun goes down—his hopes are dashed to earth, and as he realized his condition and recalled his hopes and fond ambitions, how natural the words which were his last: "It is too bad, too bad." Very many times have these words been echoed back by his friends. Let his virtues, and they were many, live as an example to his son and other young men as an example of what energy, honesty and pluck may accomplish. And his faults, whatever they may have been, let them be buried in oblivion. He was a good friend, and his great heart responded to the friendship of a host which was fully attested on the day his remains were laid to rest in his home city, and the estimate of his fellow-senators by the large attendance of them on that sad occasion.

His race is run; his day accomplished. He rests in peace and his friends mourn.

### MAKE HOMES FOR THEM

General Andrews, Chief Fire Warden of the State Would Keep "Lumberjacks" in the Woods all the Time

In the opinion of General C. C. Andrews, state chief fire warden, "lumberjacks" should be provided with homes, and should live and be employed in the woods the year around. General Andrews advocates the adoption of European methods in our woods and claims that the lumbermen and their employees would all be benefited thereby.

"The men who work in the woods labor hard, and their condition could be materially bettered," says the warden. "With the introduction of improved methods of forestry, such as prevail in Germany, the woodsmen would not be homeless wanderers who migrate with the seasons, but would live in the woods and have their families with them. Between 10,000 and 12,000 men are now at work in the pineries of Minnesota, stationed in logging camps in nearly all the counties from Cook on the east to Red Lake on the west, and from Mille Lacs on the south to the Canadian boundary on the north."

### ANDERSON TAKEN TO LITTLE FALLS

Deputy Marshal Converse Takes John Anderson Before the U. S. Commissioner

### APPLICATION FOR A DISCHARGE

Will Be Made by the Prisoner and He Will Be Given His Liberty at Once.

Deputy United States Marshal Converse was in the city today and took John Anderson, the man who has been confined in the Crow Wing county jail for several months serving sentence for selling whiskey to the Indians, to Little Falls where he will appear before the U. S. commissioner to make application for his discharge under the poor debtor law.

The man was convicted last July in the U. S. court and was sentenced to serve a term of sixty days in jail here and to pay a fine of \$100. After he had served his time he was unable to pay the fine. The law provides that in such cases the prisoner must serve a further term of thirty days in lieu of the payment of the fine. When the extra thirty days were served Anderson was not particularly anxious to get out and it was necessary for the deputy marshal to come here and take him to Little Falls before the commissioner. He served much more time than was necessary under the sentence.

The Late Senator A. F. Ferris.

Frater of Crow Wing county, the latter gentleman being the successor of the late Senator Ferris from this district.

The remarks of Senator Frater were as follows:

Mr. President:

This hour and the occasion for its observance leads our minds back to the early days of Northern Minnesota. When the idea was conceived of building a railroad from Lake Superior to Puget Sound through what was then considered an uninhabitable waste, fit only for the habitation of wild beasts and wild men, wholly unproductive except for timber which it was supposed would not be needed for generations.

SENATOR JOHN T. FRATER

Strong far-seeing men organized a company to be known as the Northern Pacific Railroad company, had surveys made and decided that a railroad could be built and become profitable which would open to settlement and provide homes for millions who would follow this artery of trade and commerce which they proposed to lay, and erect great states out of the then unoccupied territory. In 1870 the project was commenced and in Minnesota are perpetuated the names of these great characters, in the names of cities and towns along the line, and the growth and development of these towns and the surrounding country will even remain

from a beautiful New York village to a habitation in the dense pine forest, in the morning of life to develop with the new country in which the father had cast his lot. From this time on his life was one of uneventful school days; hunting and fishing in summer, with skating and kindred sports in the cold northern winters, mark his career until the age of seventeen when the father is stricken and the son finds his widowed mother burdened with grief and with the added weight of business cares, for the father had prospered greatly. This young man recognizing to a large degree the necessity of an education attended Carlton College for two years and then entered the First National bank of Brainerd, which had been founded by his father, as a clerk, and soon after was made its cashier, and although very young soon showed his ability and adaptation to the position and rose rapidly in the estimation of the directors and patrons until in the year 1892 at the age of 27 he was elected its president, a most decided mark of distinction for one so young. He was also honored by an election to the city council in which he served with marked ability; was secretary of the Board of Trade of the city of Brainerd and was also a member of the State Game and Fish Commission for a number of years and its first secretary.

In 1894 he was elected to the house of representatives of the state legislature, was re-elected in 1896, 1898 and 1900 and in 1902 was elected to the state senate. With what energy and ability he served his state as a legislator, you, Mr. President and fellow-senators, know better than do I. That record may be better spoken of by you who have served with him.

It was my good fortune to know the late Senator Ferris from his boyhood, to early learn of his political aspirations and to assist him in gaining the goal of his ambitions, and to rejoice with him

REMARKS OF SENATOR FRATER
Many Eloquent Eulogies Delivered
by Former Friends of Deceas-
ed—Date Set by Senate

Today at St. Paul the state senate, in
accordance with a resolution passed
some days ago, held a special session at
which time the life and character of the
late Senator Allen F. Ferris, of this city,
was commemorated by his former col-
leagues. Among those who made ad-
dresses were Senator Morgan, of Albert
Lea, Senator Dunn of Ramsey county,
Senator Thorpe of Kandiyohi county,
Senator Peterson of Clay county, Sen-
ator Brower of Stearns county, Senator
Horton of St. Paul and Senator John T.

monuments to the energy and foresight
of Aitkin, Brainerd, Motley, Aldrich,
Perham, and others. But this develop-
ment brought many others, of all class-
es, as in the operation of a railroad, and
the express companies which are asso-
ciated with it, men of ability and char-
acter are a necessity and are always to
be found, even on the remote borders of
civilization.
Early in 1872 came to Brainerd, as the
Agent of the American Express Com-
pany, William Ferris with his family
from western New York, and with keen
energy, foresight and pluck went to
work to serve well his company and as-
sist in developing the town and sur-
rounding country by aiding in the es-
tablishment of schools and churches
and everything that goes to make up a
model American community. Of this
family the youngest child and only son
was the seven year old Allan F. Ferris,
a child of barely school age, transferred

and his friends in his successes; and to
be honored as a counsellor on many oc-
casions where politics was the question
at issue. We were friends. His lease
of life had many years seemingly—his
prospects in life were rising to a dazzling
meridian in every way—business, home,
family—all to his liking, and content-
ment his portion. Suddenly in the
midst of all this he is stricken—his sun
goes down—his hopes are dashed to
earth, and as he realized his condition
and recalled his hopes and fond ambi-
tions, how natural the words which
were his last: "It is too bad, too bad."
Very many times have these words been
echoed back by his friends. Let his
virtues, and they were many, live as an
example to his son and other young men
as an example of what energy, honesty
and pluck may accomplish. And his
faults, whatever they may have been,
let them be buried in oblivion. He was
a good friend, and his great heart re-
sponded to the friendship of a host
which was fully attested on the day his
remains were laid to rest in his home
city, and the estimate of his fellow-sen-
ators by the large attendance of them
on that sad occasion.
His race is run; his day accomplished.
He rests in peace and his friends
mourn.

MAKE HOMES FOR THEM
General Andrews, Chief Fire Warden of
the State Would Keep "Lumberjacks"
in the Woods all the Time

In the opinion of General C. C. An-
drews, state chief fire warden, "lumber-
jacks" should be provided with homes,
and should live and be employed in the
woods the year around. General An-
drews advocates the adoption of Euro-
pean methods in our woods and claims
that the lumbermen and their employees
would all be benefited thereby.
"The men who work in the woods
labor hard, and their condition could be
materially bettered," says the warden.
"With the introduction of improved
methods of forestry, such as prevail in
Germany, the woodsmen would not be
homeless wanderers who migrate with
the seasons, but would live in the woods
and have their families with them. Be-
tween 10,000 and 12,000 men are now at
work in the pineries of Minnesota, sta-
tioned in logging camps in nearly all the
counties from Cook on the east to Red
Lake on the west, and from Mille Laes
on the south to the Canadian boundary
on the north."

The remarks of Senator Frater were
as follows:

Mr. President:

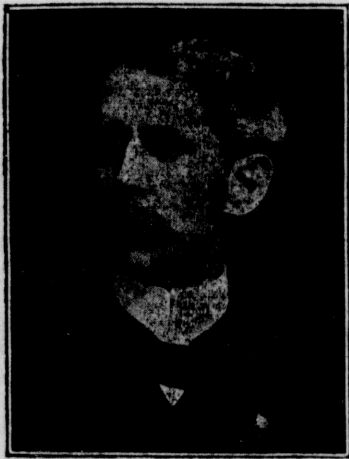

This hour and the occasion for its ob-
servance leads our minds back to the
early days of Northern Minnesota.
When the idea was conceived of build-
ing a railroad from Lake Superior to
Puget Sound through what was then
considered an uninhabitable waste, fit
only for the habitation of wild beasts
and wild men, wholly unproductive ex-
cept for timber which it was supposed
would not be needed for generations.

from a beautiful New York village to a
habitation in the dense pine forest, in
the morning of life to develop with the
new country in which the father had
cast his lot. From this time on his life
was one of uneventful school days;
hunting and fishing in summer, with
skating and kindred sports in the cold
northern winters, mark his career until
the age of seventeen when the father is
stricken and the son finds his widowed
mother burdened with grief and with
the added weight of business cares, for
the father had prospered greatly. This
young man recognizing to a large degree
the necessity of an education attended
Carlton College for two years and then
entered the First National bank of
Brainerd, which had been founded by
his father, as a clerk, and soon after was
made its cashier, and although very
young soon showed his ability and ad-
aptation to the position and rose rapidly
in the estimation of the directors and
patrons until in the year 1892 at the
age of 27 he was elected its president, a
most decided mark of distinction for
one so young. He was also honored by
an election to the city council in which
he served with marked ability; was sec-
retary of the Board of Trade of the city
of Brainerd and was also a member of
the State Game and Fish Commission
for a number of years and its first sec-
retary.

In 1894 he was elected to the house of
representatives of the state legislature,
was re-elected in 1896, 1898 and 1900 and
in 1902 was elected to the state senate.
With what energy and ability he served
his state as a legislator, you, Mr. Presi-
dent and fellow-senators, know better

APPLICATION FOR A DISCHARGE

Deputy United States Marshal Con-
verse was in the city today and took
John Anderson, the man who has been
confined in the Crow Wing county jail
for several months serving sentence for
selling whiskey to the Indians, to Lit-
tle Falls where he will appear before
the U. S. commissioner to make appli-
cation for his discharge under the poor
debtor law.

The man was convicted last July in
the U. S. court and was sentenced to
serve a term of sixty days in jail here
and to pay a fine of \$100. After he had
served his time he was unable to pay
the fine. The law provides that in such
cases the prisoner must serve a further
term of thirty days in lieu of the pay-
ment of the fine. When the extra thirty
days were served Anderson was not par-
ticularly anxious to get out and it was
necessary for the deputy marshal to
come here and take him to Little Falls
before the commissioner. He served
much more time than was necessary un-
der the sentence.

## CAPITAL STOCK INCREASED.

Great Northern Power Company Makes an Important Move.

Duluth, Jan. 12.—Amended articles of incorporation of the Great Northern Power company, which proposes to harness the waters in the northern part of Minnesota for the purpose of furnishing electric power and light to Duluth, Superior and the towns of the Iron ranges, were Wednesday filed in the office of the clerk of the court here increasing the amount of the capital stock from \$100,000 to \$2,000,000. The project, which has been under way for five years, has recently attracted the attention of Eastern capitalists. Charles D. Barney & Co., bankers of New York and Philadelphia, Tucker & Co., bankers of Boston, and the Knickerbocker Trust company have provided \$4,000,000 for the completion of the work and the officials assert that power will be delivered at the Head of the Lakes within eighteen months.

## BY AN INCENDIARY FIRE.

Business Section of an Iowa Village Destroyed.

Des Moines, Ia., Jan. 12.—Fire of supposed incendiary origin destroyed the business section of Arispe, a village forty miles south of here, Wednesday. The Arispe Mercantile company, where the flames originated, was the heaviest loser, the building and its contents, valued at \$10,000, being consumed. The Manes general merchandise store and a number of small business houses also were consumed. The total loss will approximate \$20,000; partially insured.

## COSTLY FIRE AT CHELSEA.

Property Worth \$200,000 Destroyed and Three Men Injured.

Chelsea, Mass., Jan. 12.—A fire that broke out at 12:15 o'clock Thursday morning gutted the Academy of Music on Broadway and spread to the Hotel Savoy adjoining, and to a four-story brick tenement building at the rear.

The fire was under control at 2 o'clock with the loss estimated at \$200,000. Three men were injured, one possibly fatally.

## WOULD AFFECT MILES

AMENDMENT TO ARMY APPROPRIATION BILL INTRODUCED IN THE HOUSE.

## CUTS PAY OF HIGH OFFICERS

MEASURE APPLIES TO THOSE ASSIGNED TO DUTY WITH THE STATE MILITIA.

Washington, Jan. 12.—The appointment of Lieutenant General Nelson A. Miles as inspector general of the state of Massachusetts overshadowed all other questions in the discussion of the army appropriation bill in the house Wednesday. The debate had proceeded leisurely until Mr. Hull, in charge of the bill, offered an amendment providing that retired officers above the grade of major should not receive the full pay of their grade when assigned to duty with the militia of the several states. Several members declared that the amendment was directed especially at General Miles. But Mr. Hull insisted that he had no such thought in mind and argued that the best results were obtained from officers of the lower grades. He asserted that not until the law was passed allowing increased pay for officers assigned to the militia did retired officers of the higher grades apply for the appointments. He said it was such increased pay and not patriotism which prompted them and he characterized their conduct as unseemly. This statement roused Mr. Cockran of New York, who declared that it was simply penalizing superior officers to the advantage and profit of inferior officers. After a lively debate, the amendment was adopted.

Several members severely criticized army and navy expenditures and Mr. Prince called attention to the large retired list, which included 236 brigadier generals, who, he said, could not have been retired by operation of law, though he disclaimed any intention of charging any maladministration of the law.

Consideration of the army bill was not concluded when the house adjourned for the day.

## STATEHOOD AND RAILROADS.

Attention of the Senate Divided Between Two Questions.

Washington, Jan. 12.—The attention of the senate Wednesday was divided between the statehood and governmental regulation of railroads. Mr. Newlands made a formal speech on the railroad subject and at its close engaged in a spirited controversy over the points involved with Senators Spooner, Foraker and others.

All amendments to the statehood bill except that relating to liquor traffic in Indian Territory, were agreed to.

## AGAINST TARIFF REVISION.

Ninety Per Cent of House Members So Reported.

Washington, Jan. 12.—A prominent member of the house ways and means committee says that the poll which the leaders of the house had conducted of the Republican members on the question of tariff revision showed that 90 per cent of the members who had been approached were against revision. All the leaders of the house, except Representative Payne, chairman of the ways and means committee, who is laid up with rheumatism, and Representative Tawney are against revision. The work of crystallizing sentiment against revision is being done by Representatives Dailzell of Pennsylvania and Grosvenor of Ohio. The tangle result in this direction Wednesday night, it is stated, is the signature of practically all the Republican members from the states of Pennsylvania, Ohio, New York, West Virginia to petitions against tariff revision.

The Pacific coast delegation endeavored to get together Wednesday, but without avail.

The friends of revision seem to be taking no active interest in advancing their ideas in the house but claim to have many members in the various delegations on their side.

## Strange Method of Suicide.

Milton, Ky., Jan. 12.—J. Atwood Bowman, one of the best known farmers of Trimble county, committed suicide Wednesday in an unusual manner. He rode to a river, dismounted, broke a hole in the ice and crawled into the water, drowning himself. The horse returned riderless to the Bowman home.

## Bryan Will Appeal Case.

New Haven, Conn., Jan. 12.—Counsel for William J. Bryan Wednesday filed notice of appeal to the supreme court from the decision of Judge Robinson, in the superior court, in excluding as evidence the sealed letter by which Philo S. Bennett requested his widow to turn over to Mr. Bryan the sum of \$50,000.

## Investigation to Be Made.

Jefferson City, Mo., Jan. 12.—In the house of representatives Wednesday a resolution was unanimously adopted providing for the appointment of a committee to investigate the campaign contributions of Thomas K. Niedringhaus of St. Louis, Republican candidate for United States senator to succeed Senator Cockrell.

## THE CASE OF BRODIE L. DUKE.

Relatives Will Bring Criminal Charges Against Certain Persons.

New York, Jan. 12.—Brodie L. Duke was Tuesday transferred to the insane asylum at Amityville, L. I., from the Sanford Hall sanitarium at Flushing. The Duke family, it was learned Wednesday, will not only seek to have the marriage of their kinsman to Miss Webb annulled, but will bring criminal charges against certain persons who will be charged with a conspiracy to bring about his marriage.

The first action looking toward the release of Duke was taken by Lawyer Champs S. Andrews, who obtained from Justice Gaynor a writ of habeas corpus calling upon the superintendent of the Sanford Hall sanitarium to produce Mr. Duke in court on Friday morning at 10 o'clock.

On the other hand, Lawyer Cornelius J. Sullivan, counsel for the Duke family, appeared before Judge Greenbaum and obtained an order directing Duke and his relatives to show cause why a committee should not be appointed to take charge of the person and property of Brodie L. Duke. The order is made returnable in the supreme court on Jan. 20.

## INJURED IN A RUN ON A BANK.

Five Persons Hurt in a Queer Panic in New York.

New York, Jan. 12.—Three policemen and two Hebrew women were injured in a run on the State bank on Grand street, in the heart of the business section of the East Side Wednesday. The run was attended by some sensational incidents. The 5,000 persons crowded about the bank became so impatient that they broke down an iron railing around a light well in front of the building and it was only by desperate clubbing on the part of the police that the excited and unruly mob was prevented from forcing many of its number into the well. The policemen and women were hurt at that point. The cause of the run was as extraordinary as the frenzied condition of the crowd. Tuesday there was a rush of depositors to get their money into the bank in time to begin to draw interest at once and the long line of waiting depositors convinced the excitable Hebrews that something was wrong with the institution. In all, the bank paid out \$55,000 and received in deposits \$440,000.

## Booth's Roommate Dead.

New York, Jan. 12.—John Matthews, an actor who for a time was held as a suspect in connection with the assassination of President Lincoln, died at his boardinghouse in this city Wednesday. Matthews was Wilkes Booth's roommate and was on the stage in the Washington theater when the fatal shot was fired.

## TELEGRAPHIC BREVITIES.

Five inches of snow fell in St. Paul Wednesday.

At Chicago, John Miller, a cook, killed his wife, daughter and himself while in a jealous rage.

Governor Jefferson Davis was inaugurated Wednesday as governor of Arkansas at Little Rock.

At Raleigh, N. C., R. B. Glenn of Winston was inaugurated as governor of North Carolina Wednesday.

The National Livestock association, in session at Denver, has decided to bar railroads from membership.

Professor William T. Matthews, an artist, the friend of many well known men and the painter of portraits of a number of presidents and others in public life, is dead at Washington, aged seventy years.

Lloyd E. Baxter, formerly in the employ of the Western Union Telegraph company at Minneapolis, is said to have been killed in a quarrel in Mexico, where he was superintending the erection of a telegraph and telephone line.

## BILLS IN THE HOUSE

SEVERAL MEASURES OF CONSIDERABLE IMPORTANCE ARE INTRODUCED.

ONE WOULD TAKE STATE UNIVERSITY FROM UNDER CONTROL OF BOARD.

St. Paul, Jan. 12.—Important bills, one by George E. Perley, Moorhead, taking away the management and care of the state university and the normal schools, and another by J. G. Lund, Minneapolis, bringing state offices under the provisions of the state primary law, were introduced in the house Wednesday.

Mr. Perley's bill provides for a severance of relations between the board of control and the university and state normal schools, beginning with Aug. 1, 1905. After that date the university is to be under the sole control of the board of regents, and the normal schools under the state normal board.

Representative Lund's bill provides for the amendment of the present code to the extent that all candidates for any state, county, congressional, city or township office shall be voted on at a primary election to be held seven weeks in advance of the regular election. Any legal citizen of the state is made eligible to participate on the payment of the necessary filing fee, \$50 for all state nominations.

A. L. Cole of Walker introduced a bill providing for the creation of a state drainage commission, to be composed of the governor, state auditor and secretary. A fund of \$25,000 is provided, with which to enable the commission to make the necessary investigations of the area requiring drainage, and to report the same to the next legislature.

Other house bills are:

H. F. No. 8.—Perley—Appropriating \$1,540 to pay William Merritt balance on construction of addition to Moorehead state normal school. Appropriations.

H. F. No. 11.—Adams—Legalizing acquisition of additional territory by cities, towns and villages secured through the enactment of charters.

H. F. No. 12.—Carlson—To protect signers of lightning rod and patent right notes by requiring nature of same to be written across the face in red ink, and making them negotiable.

H. F. No. 13.—Erickson—Amending employers' liability act to the extent of making \$10,000 the limit of damages in event of death, making widows, children and all legal heirs the only beneficiaries and fixing two years as the limit of time in which to bring suit.

## PROCEEDINGS IN THE SENATE.

Committee Blames Code Commission for Delay.

The senate committee to investigate the status of the report of the code commission gave the commission a sharp rap in its report laid before the senate Wednesday, and placed the blame for the delay at the door of the commissioners.

The committee made no specific recommendation, although offering the suggestion that the code commission could, because of its lamentable failure, be asked to resign or the offices of the members be abolished.

The committee report was very thorough and covered everything that transpired from the appointment of the code commission until the present time.

The code commission report, in the first instance, was to have been ready by Dec. 1, 1902, a further extension of time being given till Dec. 1, 1904. The first appropriation was \$35,000, but an additional appropriation of \$50,000 was made at the request of the commission.

The report of the committee was adopted without discussion.

There was a flood of bills. Two of them by Senator Schain had reference to amending the primary law. By the first amendment no person is allowed to vote at a primary who signs a petition for one seeking office, and no one who votes is permitted to sign a petition. By the second amendment the primary election in cities of 50,000 or over, is held the last Tuesday in June, and covers state as well as city and county officers. All candidates for the judiciary are placed on a ticket by themselves.

Other senate bills are: S. F. No. 9.—Peterson—To revise the constitution of the state of Minnesota. Judiciary.

S. F. No. 10.—Peterson—Placing state university and normal schools in control of university regents and normal school boards. Education.

S. F. No. 11.—Peterson—Payment of William H. Merritt for the construction of the Moorehead normal school. Claims.

S. F. No. 12.—Schain—Regulating the appointment of assessors. Judiciary.

S. F. No. 15.—Dunn—Providing for issuing bonds for park purposes.

S. F. No. 16.—For payment of benefits for lands condemned for park purposes.

S. F. No. 17.—Dunn—Amending section 19, chapter 292, relating to mortgages and conveyances of personal property.

President Jones announced the standing committee of the senate. Only eighteen changes in all were made.

## ROAD 5,000 YEARS OLD.

Scenes Along One of the Most Ancient Highways in the World.

The road from Homs to Hama runs almost due north, a straight white line cutting across the green fields. It is one of the oldest routes in the world. Caravans have been passing along it for at least 5,000 years, just as we saw them—long strings of slow moving camels with their bright colored bags of wheat.

One could almost imagine that Pharaoh was again calling down the corn of Hamath to fill his granaries against the seven years of famine. But even here the old things are passing. Just beyond the long line of camels was a longer line of fellah women, their dirty blue robes kilted above their knees, carrying upon their shoulders baskets of earth and stone for the roadbed of the new French railway.

The carriage road is French, too, and a very good road it is. Some men were repairing it with a most ingenious roller. It was a great round stone, drawn by two oxen and having its axle prolonged by a twenty foot pole, at the end of which a barelegged Arab was fastened to balance the whole affair. If the stone had toppled over the picture of the Arab dangling at the top of the slender flagstaff would have been worth watching.

All along the ride we were reminded of the past. It is a fertile soil, but the very wheatfields are different from ours. Only a few yards in width, they are often of tremendous length. I hesitate to commit myself to figures, but it is certain that the thin, green fields would stretch away in the distance until lost over some little elevation. At one place the road was cut through a hill honeycombed with rock tombs which the haj said were Jewish.

Every now and then we passed a tell, or great hemispherical mound, built up of the rubbish of a dozen ruined towns, for even as late as Roman times this was a well cultivated and populous country. There is now no lumber available for building purposes, and in a number of villages the houses are all built with conical roofs of stone. Where the rock happens to be of a reddish tinge the houses remind one of nothing so much as a collection of Indian wigwags. Where the stone is white, as at Tell et Bish, it glitters and sparkles like a fairy city cut out of loaf sugar.—Scribner's Magazine.

## POINTED PARAGRAPHS.

Do you always keep an appointment or just claim to?

A woman always thinks her dressmaker keeps half the goods.

Nine-tenths of the things people quarrel over do not make any difference one way or the other.

When the doctor says to you, "Old man, I'm sorry, but you can't live an hour," how will you take it?

A boy is old enough to be welcome in the neighbor girl's parlor long before his sister thinks he is old enough to sit in the parlor at home.

Had the old fashioned children acted like the present generation there would have been no children. Their parents would have beaten them to death.

Every one has his vanity card to play. The preacher gets a man into the fold by telling him of the "great influence" he has upon others.—Atchison Globe.

## A Fish's Appetite.

A singular instance of tenacity in the digestion of fish is reported from Sheffield, England. The fish, which was a ling four feet long, had what appeared to be an abnormally hard liver. But the cutting up process revealed something far stranger. The supposed hard liver turned out to be nothing else but a piece of stout netting, over two yards long and fourteen inches wide, which had been pressed into the form of a football. How this great mass of indigestible material came to be swallowed by the creature is a mystery, and the suggestion that the fish caught in the coils of a fisherman's net solved the problem of how to escape by devouring his prison walls is not considered scientifically practicable.

## Lovers' Hearts.

How old is the emblem of a lover's heart? In the days before metals were used weapons made of stone were formed by prehistoric men. Among the most notable of such ancient weapons are a number of beautifully chipped arrowheads which have been taken to be the work of fairies and have therefore been used as charms from very remote times. In Scotland they are called "elf bolts," and they are so shaped that when the central projection is broken off the semblance of a lover's heart remains.—London Answers.

## Keeping Cider.

Where cider is used from the cask, to prevent spoiling in the partly empty cask pour upon the cider a quart of some tasteless oil, such as olive or peanut oil. The oil will form a thin film on the surface of the cider and prevent access of the acetic and putrefactive ferments always present in the air.—Southern Farm Magazine.

## No Choice in the Matter.

"And what did Jane say about me?" "Well, I'd just as soon tell you, Jane said she thought you were strictly honest."

"That's nice of Jane."

"Yes. She said you didn't know enough to be anything else."—Cleveland Plain Dealer.

## The Way to Dress.

"Now, then," said Mrs. Polk after dinner, "how shall I dress for the theater this evening?"

"In time to see part of the first act, dear," replied her husband mildly.—Exchange.

### CAPITAL STOCK INCREASED.

Great Northern Power Company Makes an Important Move.

Duluth, Jan. 12.—Amended articles of incorporation of the Great Northern Power company, which proposes to harness the waters in the northern part of Minnesota for the purpose of furnishing electric power and light to Duluth, Superior and the towns of the Iron ranges, were Wednesday filed in the office of the clerk of the court here increasing the amount of the capital stock from \$100,000 to \$2,000,000. The project, which has been under way for five years, has recently attracted the attention of Eastern capitalists. Charles D. Barney & Co., bankers of New York and Philadelphia, Tucker & Co., bankers of Boston, and the Knickerbocker Trust company have provided \$4,000,000 for the completion of the work and the officials assert that power will be delivered at the Head of the Lakes within eighteen months.

### BY AN INCENDIARY FIRE.

Business Section of an Iowa Village Destroyed.

Des Moines, Ia., Jan. 12.—Fire of supposed incendiary origin destroyed the business section of Arispe, a village forty miles south of here, Wednesday. The Arispe Mercantile company, where the flames originated, was the heaviest loser, the building and its contents, valued at \$10,000, being consumed. The Manes general merchandise store and a number of small business houses also were consumed. The total loss will approximate \$20,000; partially insured.

### COSTLY FIRE AT CHELSEA.

Property Worth \$200,000 Destroyed and Three Men Injured.

Chelsea, Mass., Jan. 12.—A fire that broke out at 12:15 o'clock Thursday morning gutted the Academy of Music on Broadway and spread to the Hotel Savoy adjoining, and to a four-story brick tenement building at the rear.

The fire was under control at 2 o'clock with the loss estimated at \$200,000. Three men were injured, one possibly fatally.

## WOULD AFFECT MILES

### AMENDMENT TO ARMY APPROPRIATION BILL INTRODUCED IN THE HOUSE.

### CUTS PAY OF HIGH OFFICERS

### MEASURE APPLIES TO THOSE ASSIGNED TO DUTY WITH THE STATE MILITIA.

Washington, Jan. 12.—The appointment of Lieutenant General Nelson A. Miles as inspector general of the state of Massachusetts overshadowed all other questions in the discussion of the army appropriation bill in the house Wednesday. The debate had proceeded leisurely until Mr. Hull, in charge of the bill, offered an amendment providing that retired officers above the grade of major should not receive the full pay of their grade when assigned to duty with the militia of the several states. Several members declared that the amendment was directed especially at General Miles. But Mr. Hull insisted that he had no such thought in mind and argued that the best results were obtained from officers of the lower grades. He asserted that not until the law was passed allowing increased pay for officers assigned to the militia did retired officers of the higher grades apply for the appointments. He said it was such increased pay and not patriotism which prompted them and he characterized their conduct as unseemly. This statement roused Mr. Cockran of New York, who declared that it was simply penalizing superior officers to the advantage and profit of inferior officers. After a lively debate, the amendment was adopted.

Several members severely criticized army and navy expenditures and Mr. Prince called attention to the large retired list, which included 236 brigadier generals, who, he said, could not have been retired by operation of law, though he disclaimed any intention of charging any maladministration of the law.

Consideration of the army bill was not concluded when the house adjourned for the day.

### STATEHOOD AND RAILROADS.

#### Attention of the Senate Divided Between Two Questions.

Washington, Jan. 12.—The attention of the senate Wednesday was divided between the statehood and governmental regulation of railroads. Mr. Newlands made a formal speech on the railroad subject and at its close engaged in a spirited controversy over the points involved with Senators Spooner, Foraker and others.

All amendments to the statehood bill except that relating to liquor traffic in Indian Territory, were agreed to.

### AGAINST TARIFF REVISION.

#### Ninety Per Cent of House Members So Reported.

Washington, Jan. 12.—A prominent member of the house ways and means committee says that the poll which the leaders of the house had conducted of the Republican members on the question of tariff revision showed that 90 per cent of the members who had been approached were against revision. All the leaders of the house, except Representative Payne, chairman of the ways and means committee, who is laid up with rheumatism, and Representative Tawney are against revision. The work of crystallizing sentiment against revision is being done by Representatives Ditzell of Pennsylvania and Grosvenor of Ohio. The tangible result in this direction Wednesday night, it is stated, is the signature of practically all the Republican members from the states of Pennsylvania, Ohio, New York, West Virginia to petitions against tariff revision.

The Pacific coast delegation endeavored to get together Wednesday, but without avail.

The friends of revision seem to be taking no active interest in advancing their ideas in the house but claim to have many members in the various delegations on their side.

### Strange Method of Suicide.

Milton, Ky., Jan. 12.—J. Atwood Bowman, one of the best known farmers of Trimble county, committed suicide Wednesday in an unusual manner. He rode to a river, dismounted, broke a hole in the ice and crawled into the water, drowning himself. The house returned riderless to the Bowman home.

### Bryan Will Appeal Case.

New Haven, Conn., Jan. 12.—Counsel for William J. Bryan Wednesday filed notice of appeal to the supreme court from the decision of Judge Robinson, in the superior court, in excluding as evidence the sealed letter by which Philo S. Bennett requested his widow to turn over to Mr. Bryan the sum of \$50,000.

### Investigation to Be Made.

Jefferson City, Mo., Jan. 12.—In the house of representatives Wednesday a resolution was unanimously adopted providing for the appointment of a committee to investigate the campaign contributions of Thomas K. Niedringhaus of St. Louis, Republican candidate for United States senator to succeed Senator Cockrell.

## THE CASE OF BRODIE L. DUKE.

### Relatives Will Bring Criminal Charges Against Certain Persons.

New York, Jan. 12.—Brodie L. Duke was Tuesday transferred to the insane asylum at Amityville, L. I., from the Sanford Hall sanitarium at Flushing. The Duke family, it was learned Wednesday, will not only seek to have the marriage of their kinsman to Miss Webb annulled, but will bring criminal charges against certain persons who will be charged with a conspiracy to bring about his marriage.

The first action looking toward the release of Duke was taken by Lawyer Champs S. Andrews, who obtained from Justice Gaynor a writ of habeas corpus calling upon the superintendent of the Sanford Hall sanitarium to produce Mr. Duke in court on Friday morning at 10 o'clock.

On the other hand, Lawyer Cornelius J. Sullivan, counsel for the Duke family, appeared before Judge Greenbaum and obtained an order directing Duke and his relatives to show cause why a committee should not be appointed to take charge of the person and property of Brodie L. Duke. The order is made returnable in the supreme court on Jan. 20.

### INJURED IN A RUN ON A BANK.

#### Five Persons Hurt in a Queer Panic in New York.

New York, Jan. 12.—Three policemen and two Hebrew women were injured in a run on the State bank on Grand street, in the heart of the business section of the East Side Wednesday. The run was attended by some sensational incidents. The 5,000 persons crowded about the bank became so insistent that they broke down an iron railing around a light well in front of the building and it was only by desperate clubbing on the part of the police that the excited and unruly mob was prevented from forcing many of its number into the well. The policemen and women were hurt at that point. The cause of the run was as extraordinary as the frenzied condition of the crowd. Tuesday there was a rush of depositors to get their money into the bank in time to begin to draw interest at once and the long line of waiting depositors convinced the excitable Hebrews that something was wrong with the institution. In all, the bank paid out \$55,000 and received in deposits \$440,000.

### Booth's Roommate Dead.

New York, Jan. 12.—John Matthews, an actor who for a time was held as a suspect in connection with the assassination of President Lincoln, died at his boardinghouse in this city Wednesday. Matthews was Wilkes Booth's roommate and was on the stage in the Washington theater when the fatal shot was fired.

### TELEGRAPHIC BREVITIES.

Five inches of snow fell in St. Paul Wednesday.

At Chicago, John Miller, a cook, killed his wife, daughter and himself while in a jealous rage.

Governor Jefferson Davis was inaugurated Wednesday as governor of Arkansas at Little Rock.

At Raleigh, N. C., R. B. Glenn of Winston was inaugurated as governor of North Carolina Wednesday.

The National Livestock association, in session at Denver, has decided to bar railroads from membership.

Professor William T. Matthews, an artist, the friend of many well known men and the painter of portraits of a number of presidents and others in public life, is dead at Washington, aged seventy years.

Lloyd E. Baxter, formerly in the employ of the Western Union Telegraph company at Minneapolis, is said to have been killed in a quarrel in Mexico, where he was superintending the erection of a telegraph and telephone line.

## BILLS IN THE HOUSE

### SEVERAL MEASURES OF CONSIDERABLE IMPORTANCE ARE INTRODUCED.

### ONE WOULD TAKE STATE UNIVERSITY FROM UNDER CONTROL OF BOARD.

St. Paul, Jan. 12.—Important bills, one by George E. Perley, Moorhead, taking away the management and care of the state university and the normal schools, and another by J. G. Lund, Minneapolis, bringing state offices under the provisions of the state primary law, were introduced in the house Wednesday.

Mr. Perley's bill provides for a severance of relations between the board of control and the university and state normal schools, beginning with Aug. 1, 1905. After that date the university is to be under the sole control of the board of regents, and the normal schools under the state normal board.

Representative Lund's bill provides for the amendment of the present code to the extent that all candidates for any state, county, congressional, city or township office shall be voted on at a primary election to be held seven weeks in advance of the regular election. Any legal citizen of the state is made eligible to participate on the payment of the necessary filing fee, \$50 for all state nominations.

A. L. Cole of Walker introduced a bill providing for the creation of a state drainage commission, to be composed of the governor, state auditor and secretary. A fund of \$25,000 is provided, with which to enable the commission to make the necessary investigations of the area requiring drainage, and to report the same to the next legislature.

Other house bills are:

H. F. No. 8.—Perley—Appropriating \$1,640 to pay William Merritt balance on construction of addition to Moorehead state normal school. Appropriations.

H. F. No. 11.—Adams—Legalizing acquisition of additional territory by cities, towns and villages secured through the enactment of charters.

H. F. No. 12.—Carlson—To protect signers of lightning rod and patent right notes by requiring nature of same to be written across the face in red ink, and making them negotiable.

H. F. No. 13.—Erickson—Amending employers' liability act to the extent of making \$10,000 the limit of damages in event of death, making widows, children and all legal heirs the only beneficiaries and fixing two years as the limit of time in which to bring suit.

### PROCEEDINGS IN THE SENATE.

#### Committee Blames Code Commission for Delay.

The senate committee to investigate the status of the report of the code commission gave the commission a sharp rap in its report laid before the senate Wednesday, and placed the blame for the delay at the door of the commissioners.

The committee made no specific recommendation, although offering the suggestion that the code commission could, because of its lamentable failure, be asked to resign or the offices of the members be abolished.

The committee report was very thorough and covered everything that transpired from the appointment of the code commission until the present time.

The code commission report, in the first instance, was to have been ready by Dec. 1, 1902, a further extension of time being given till Dec. 1, 1904. The first appropriation was \$35,000, but an additional appropriation of \$50,000 was made at the request of the commission.

The report of the committee was adopted without discussion.

There was a flood of bills. Two of them by Senator Schain had reference to amending the primary law. By the first amendment no person is allowed to vote at a primary who signs a petition for one seeking office, and no one who votes is permitted to sign a petition. By the second amendment the primary election in cities of 50,000 or over, is held the last Tuesday in June, and covers state as well as city and county officers. All candidates for the judiciary are placed on a ticket by themselves.

Other senate bills are:

S. F. No. 9.—Peterson—To revise the constitution of the state of Minnesota. Judiciary.

S. F. No. 10.—Peterson—Placing state university and normal schools in control of university regents and normal school boards. Education.

S. F. No. 11.—Peterson—Payment of William H. Merritt for the construction of the Moorehead normal school. Claims.

S. F. No. 12.—Schain—Regulating the appointment of assessors. Judiciary.

S. F. No. 15.—Dunn—Providing for issuing bonds for park purposes.

S. F. No. 16.—For payment of benefits for lands condemned for park purposes.

S. F. No. 17.—Dunn—Amending section 19, chapter 292, relating to mortgages and conveyances of personal property.

President Jones announced the standing committee of the senate. Only eighteen changes in all were made.

## ROAD 5,000 YEARS OLD.

### Scenes Along One of the Most Ancient Highways in the World.

The road from Homs to Hama runs almost due north, a straight white line cutting across the green fields. It is one of the oldest routes in the world. Caravans have been passing along it for at least 5,000 years. Just as we saw them—long strings of slow moving camels with their bright colored bags of wheat.

One could almost imagine that Pharaoh was again calling down the corn of Hamath to fill his granaries against the seven years of famine. But even here the old things are passing. Just beyond the long line of camels was a longer line of fellah women, their dirty blue robes kilted above their knees, carrying upon their shoulders baskets of earth and stone for the roadbed of the new French railway.

The carriage road is French, too, and a very good road it is. Some men were repairing it with a most ingenious roller. It was a great round stone, drawn by two oxen and having its axle prolonged by a twenty foot pole, at the end of which a barelegged Arab was fastened to balance the whole affair. If the stone had toppled over the picture of the Arab dangling at the top of the slender flagstaff would have been worth watching.

All along the ride we were reminded of the past. It is a fertile soil, but the very wheatfields are different from ours. Only a few yards in width, they are often of tremendous length. I hesitate to commit myself to figures, but it is certain that the thin green fields would stretch away in the distance until lost over some little elevation. At one place the road was cut through a hill honeycombed with rock tombs which the haj said were Jewish.

Every now and then we passed a tell, or great hemispherical mound, built up of the rubbish of a dozen ruined towns, for even as late as Roman times this was a well cultivated and populous country. There is now no lumber available for building purposes, and in a number of villages the houses are all built with conical roofs of stone. Where the rock happens to be of a reddish tinge the houses remind one of nothing so much as a collection of Indian wigwags. Where the stone is white, as at Tell el-Bish, it glitters and sparkles like a fairy city cut out of loaf sugar.—Scribner's Magazine.

### CAPITAL STOCK INCREASED.

Great Northern Power Company Makes an Important Move.

Duluth, Jan. 12.—Amended articles of incorporation of the Great Northern Power company, which proposes to harness the waters in the northern part of Minnesota for the purpose of furnishing electric power and light to Duluth, Superior and the towns of the Iron ranges, were Wednesday filed in the office of the clerk of the court here increasing the amount of the capital stock from \$100,000 to \$2,000,000. The project, which has been under way for five years, has recently attracted the attention of Eastern capitalists. Charles D. Barney & Co., bankers of New York and Philadelphia, Tucker & Co., bankers of Boston, and the Knickerbocker Trust company have provided \$4,000,000 for the completion of the work and the officials assert that power will be delivered at the Head of the Lakes within eighteen months.

### BY AN INCENDIARY FIRE.

Business Section of an Iowa Village Destroyed.

Des Moines, Ia., Jan. 12.—Fire of supposed incendiary origin destroyed the business section of Arispe, a village forty miles south of here, Wednesday. The Arispe Mercantile company, where the flames originated, was the heaviest loser, the building and its contents, valued at \$10,000, being consumed. The Mares general merchandise store and a number of small business houses also were consumed. The total loss will aggregate \$20,000; partially insured.

### COSTLY FIRE AT CHELSEA.

Property Worth \$200,000 Destroyed and Three Men Injured.

Chelsea, Mass., Jan. 12.—A fire that broke out at 12:15 o'clock Thursday morning gutted the Academy of Music on Broadway and spread to the Hotel Savoy adjoining, and to a four-story brick tenement building at the rear.

The fire was under control at 2 o'clock with the loss estimated at \$200,000. Three men were injured, one possibly fatally.

### AMENDMENT TO ARMY APPROPRIATION BILL INTRODUCED IN THE HOUSE.

### CUTS PAY OF HIGH OFFICERS

### MEASURE APPLIES TO THOSE ASSIGNED TO DUTY WITH THE STATE MILITIA.

Washington, Jan. 12.—The appointment of Lieutenant General Nelson A. Miles as inspector general of the state of Massachusetts overshadowed all other questions in the discussion of the army appropriation bill in the house Wednesday. The debate had proceeded leisurely until Mr. Hull, in charge of the bill, offered an amendment providing that retired officers above the grade of major should not receive the full pay of their grade when assigned to duty with the militia of the several states. Several members declared that the amendment was directed especially at General Miles. But Mr. Hull insisted that he had no such thought in mind and argued that the best results were obtained from officers of the lower grades. He asserted that not until the law was passed allowing increased pay for officers assigned to the militia did retired officers of the higher grades apply for the appointments. He said it was such increased pay and not patriotism which prompted them and he characterized their conduct as unseemly. This statement roused Mr. Cockran of New York, who declared that it was simply penalizing superior officers to the advantage and profit of inferior officers. After a lively debate, the amendment was adopted.

Several members severely criticized army and navy expenditures and Mr. Prince called attention to the large retired list, which included 236 brigadier generals, who, he said, could not have been retired by operation of law, though he disclaimed any intention of charging any maladministration of the law.

Consideration of the army bill was not concluded when the house adjourned for the day.

### STATEHOOD AND RAILROADS.

### Attention of the Senate Divided Between Two Questions.

Washington, Jan. 12.—The attention of the senate Wednesday was divided between the statehood and governmental regulation of railroads. Mr. Newlands made a formal speech on the railroad subject and at its close engaged in a spirited controversy over the points involved with Senators Spooner, Foraker and others.

All amendments to the statehood bill except that relating to liquor traffic in Indian Territory, were agreed to.

### AGAINST TARIFF REVISION.

### Ninety Per Cent of House Members So Reported.

Washington, Jan. 12.—A prominent member of the house ways and means committee says that the poll which the leaders of the house had conducted of the Republican members on the question of tariff revision showed that 90 per cent of the members who had been approached were against revision. All the leaders of the house, except Representative Payne, chairman of the ways and means committee, and Representative Tawney are against revision. The work of crystallizing sentiment against revision is being done by Representatives Dalzell of Pennsylvania and Grosvenor of Ohio. The tangle result in this direction Wednesday night, it is stated, is the signature of practically all the Republican members from the states of Pennsylvania, Ohio, New York, West Virginia to petitions against tariff revision.

The Pacific coast delegation endeavored to get together Wednesday, but without avail.

The friends of revision seem to be taking no active interest in advancing their ideas in the house but claim to have many members in the various delegations on their side.

### Strange Method of Suicide.

Milton, Ky., Jan. 12.—J. Atwood Bowman, one of the best known farmers of Trimble county, committed suicide Wednesday in an unusual manner. He rode to a river, dismounted, broke a hole in the ice and crawled into the water, drowning himself. The horse returned riderless to the Bowman home.

### Bryan Will Appeal Case.

New Haven, Conn., Jan. 12.—Counsel for William J. Bryan Wednesday filed notice of appeal to the supreme court from the decision of Judge Robinson, in the superior court, in excluding as evidence the sealed letter by which Philo S. Bennett requested his widow to turn over to Mr. Bryan the sum of \$50,000.

### Investigation to Be Made.

Jefferson City, Mo., Jan. 12.—In the house of representatives Wednesday a resolution was unanimously adopted providing for the appointment of a committee to investigate the campaign contributions of Thomas K. Niedringhaus of St. Louis, Republican, candidate for United States senator to succeed Senator Cockrell.

## THE CASE OF BRODIE L. DUKE.

### Relatives Will Bring Criminal Charges Against Certain Persons.

New York, Jan. 12.—Brodie L. Duke was Tuesday transferred to the insane asylum at Amityville, L. I., from the Sanford Hall sanitarium at Flushing. The Duke family, it was learned Wednesday, will not only seek to have the marriage of their kinsman to Miss Webb annulled, but will bring criminal charges against certain persons who will be charged with a conspiracy to bring about his marriage.

The first action looking toward the release of Duke was taken by Lawyer Champs S. Andrews, who obtained from Justice Gaynor a writ of habeas corpus calling upon the superintendent of the Sanford Hall sanitarium to produce Mr. Duke in court on Friday morning at 10 o'clock.

On the other hand, Lawyer Cornelius J. Sullivan, counsel for the Duke family, appeared before Judge Greenbaum and obtained an order directing Duke and his relatives to show cause why a committee should not be appointed to take charge of the person and property of Brodie L. Duke. The order is made returnable in the supreme court on Jan. 20.

### INJURED IN A RUN ON A BANK.

### Five Persons Hurt in a Queer Panic in New York.

New York, Jan. 12.—Three policemen and two Hebrew women were injured in a run on the State bank on Grand street, in the heart of the business section of the East Side Wednesday. The run was attended by some sensational incidents. The 5,000 persons crowded about the bank became so impatient that they broke down an iron railing around a light well in front of the building and it was only by desperate clubbing on the part of the police that the excited and unruly mob was prevented from forcing many of its number into the well. The policemen and women were hurt at that point. The cause of the run was an extraordinary as the frenzied condition of the crowd. Tuesday there was a rush of depositors to get their money into the bank in time to begin to draw interest at once and the long line of waiting depositors convinced the excited Hebrews that something was wrong with the institution. In all, the bank paid out \$55,000 and received in deposits \$440,000.

### Booth's Roommate Dead.

New York, Jan. 12.—John Matthews, an actor who for a time was held as a suspect in connection with the assassination of President Lincoln, died at his boardinghouse in this city Wednesday. Matthews was Wilkes Booth's roommate and was on the stage in the Washington theater when the fatal shot was fired.

### TELEGRAPHIC BREVITIES.

Five inches of snow fell in St. Paul Wednesday.

At Chicago, John Miller, a cook, killed his wife, daughter and himself while in a jealous rage.

Governor Jefferson Davis was inaugurated Wednesday as governor of Arkansas at Little Rock.

At Raleigh, N. C., R. B. Glenn of Winston was inaugurated as governor of North Carolina Wednesday.

The National Livestock association, in session at Denver, has decided to bar railroads from membership.

Professor William T. Matthews, an artist, the friend of many well known men and the painter of portraits of a number of presidents and others in public life, is dead at Washington, aged seventy years.

Lloyd E. Baxter, formerly in the employ of the Western Union Telegraph company at Minneapolis, is said to have been killed in a quarrel in Mexico, where he was superintending the erection of a telegraph and telephone line.

## BILLS IN THE HOUSE

### SEVERAL MEASURES OF CONSIDERABLE IMPORTANCE ARE INTRODUCED.

### ONE WOULD TAKE STATE UNIVERSITY FROM UNDER CONTROL OF BOARD.

St. Paul, Jan. 12.—Important bills, one by George E. Perley, Moorhead, taking away the management and care of the state university and the normal schools, and another by J. G. Lund, Minneapolis, bringing state offices under the provisions of the state primary law, were introduced in the house Wednesday.

Mr. Perley's bill provides for a severance of relations between the board of control and the university and state normal schools, beginning with Aug. 1, 1905. After that date the university is to be under the sole control of the board of regents, and the normal schools under the state normal board.

Representative Lund's bill provides for the amendment of the present code to the extent that all candidates for any state, county, congressional, city or township office shall be voted on at a primary election to be held seven weeks in advance of the regular election. Any legal citizen of the state is made eligible to participate on the payment of the necessary filing fee, \$50 for all state nominations.

A. L. Cole of Walker introduced a bill providing for the creation of a state drainage commission, to be composed of the governor, state auditor and secretary. A fund of \$25,000 is provided, with which to enable the commission to make the necessary investigations of the area requiring drainage, and to report the same to the next legislature.

Other house bills are:

H. F. No. 8.—Perley—Appropriating \$1,540 to pay William Merritt balance on construction of addition to Moorehead state normal school. Appropriations.

H. F. No. 11.—Adams—Legalizing acquisition of additional territory by cities, towns and villages secured through the enactment of charters.

H. F. No. 12.—Carlson—To protect signers of lightning rod and patent right notes by requiring nature of same to be written across the face in red ink, and making them negotiable.

H. F. No. 13.—Erickson—Amending employers' liability act to the extent of making \$10,000 the limit of damages in event of death, making widows, children and all legal heirs the only beneficiaries and fixing two years as the limit of time in which to bring suit.

### PROCEEDINGS IN THE SENATE.

### Committee Blames Code Commission for Delay.

The senate committee to investigate the status of the report of the code commission gave the commission a sharp rap in its report laid before the senate Wednesday, and placed the blame for the delay at the door of the commissioners.

The committee made no specific recommendation, although offering the suggestion that the code commission could, because of its lamentable failure, be asked to resign or the offices of the members be abolished.

The committee report was very thorough and covered everything that transpired from the appointment of the code commission until the present time.

The code commission report, in the first instance, was to have been ready by Dec. 1, 1902, a further extension of time being given till Dec. 1, 1904. The first appropriation was \$35,000, but an additional appropriation of \$50,000 was made at the request of the commission.

The report of the committee was adopted without discussion.

There was a flood of bills. Two of them by Senator Schain had reference to amending the primary law. By the first amendment no person is allowed to vote at a primary who signs a petition for one seeking office, and no one who votes is permitted to sign a petition. By the second amendment the primary election in cities of 50,000 or over, is held the last Tuesday in June, and covers state as well as city and county officers. All candidates for the judiciary are placed on a ticket by themselves.

Other senate bills are:

S. F. No. 9.—Peterson—To revise the constitution of the state of Minnesota. Judiciary.

S. F. No. 10.—Peterson—Placing state university and normal schools in control of university regents and normal school boards. Education.

S. F. No. 11.—Peterson—Payment of William H. Merritt for the construction of the Moorehead normal school. Claims.

S. F. No. 12.—Schain—Regulating the appointment of assessors. Judiciary.

S. F. No. 15.—Dunn—Providing for issuing bonds for park purposes.

S. F. No. 16.—For payment of benefits for lands condemned for park purposes.

S. F. No. 17.—Dunn—Amending section 19, chapter 292, relating to mortgages and conveyances of personal property.

President Jones announced the standing committee of the senate. Only eighteen changes in all were made.

## ROAD 5,000 YEARS OLD.

### Scenes Along One of the Most Ancient Highways in the World.

The road from Homs to Hamra runs almost due north, a straight white line cutting across the green fields. It is one of the oldest routes in the world. Caravans have been passing along it for at least 5,000 years, just as we saw them—long strings of slow moving camels with their bright colored bags of wheat.

One could almost imagine that Pharaoh was again calling down the corn of Hamath to fill his granaries against the seven years of famine. But even here the old things are passing. Just beyond the long line of camels was a longer line of fellah women, their dirty blue robes kilted above their knees, carrying upon their shoulders baskets of earth and stone for the roadbed of the new French railway.

The carriage road is French, too, and a very good road it is. Some men were repairing it with a most ingenious roller. It was a great round stone, drawn by two oxen and having its axle prolonged by a twenty foot pole, at the end of which a barelegged Arab was fastened to balance the whole affair. If the stone had toppled over the picture of the Arab dangling at the top of the slender flagstaff would have been worth watching.

All along the ride we were reminded of the past. It is a fertile soil, but the very wheatfields are different from ours. Only a few yards in width, they are often of tremendous length. I hesitate to commit myself to figures, but it is certain that the thin, green fields would stretch away in the distance until lost over some little elevation. At one place the road was cut through a hill honeycombed with rock tombs which the haj said were Jewish.

Every now and then we passed a tell, or great hemispherical mound, built up of the rubbish of a dozen ruined towns, for even as late as Roman times this was a well cultivated and populous country. There is now no lumber available for building purposes, and in a number of villages the houses are all built with conical roofs of stone. Where the rock happens to be of a reddish tinge the houses remind one of nothing so much as a collection of Indian wigwags. Where the stone is white, as at Tell el-Biseh, it glitters and sparkles like a fairy city cut out of loaf sugar.—Scribner's Magazine.
